ORDERING INFO

Ordering From Us: Fast, Easy, Safe and Convenient

From computer desks and home theaters to server rooms and industrial environments, cable clutter is everywhere – but the good news is that you don't have to live with it. With hundreds of cable management products, our mission at CableOrganizer is to conquer cable clutter one tangled cord at a time, to make your world a more organized, productive, and enjoyable place.

At CableOrganizer, cable management solutions are just the beginning – we also offer a full range of electrical supplies and network components that include everything you need to power up, get connected, and stay organized at home, at work, and even on the road. And the best part is, we're at your service 24/7 – simply visit our website at **CableOrganizer.com**, send an e-mail to **sales@cableorganizer.com**, or call us toll-free at (866) 222-0030 to experience:

- One-stop shopping for thousands of cable management, electrical, and networking products
- Customer service that's prompt, friendly and knowledgeable
- Secure shopping online or by toll-free phone
- Fast shipping
- Money back guarantee

How to Use Our Catalog

Throughout this catalog, you'll see that we've included a KW (keyword) feature with each product description, designed to enhance your shopping experience should you choose to browse our products online. Simply visit CableOrganizer.com, type any of these keywords into the search, and you'll instantly be able to view full product details, specs, photos and pricing.

When you're ready to purchase, just choose from the following ordering options:

- **Online:** Orders can be placed online 24/7 at CableOrganizer.com. We use the latest encryption technology to protect your personal information, so you can rest assured that our online ordering process is completely secure from beginning to end
- **Phone:** To place an order by phone, just call our toll-free line, (866) 222-0030. We take pride in the fact that *real people* at our headquarters in sunny Florida, answer our phones 24 hours a day, and are happy to offer all customers **Premier Personalized Service** between the hours of 8:30am and 6:00pm EST.
- **E-mail:** Our Customer Service department can accept e-mail orders at sales@cableorganizer.com
- **Fax:** Simply fill out the Fax Order Form on page 70 of this catalog, and send it to (954) 861-2001

The prices listed in our catalog are up to date at the time of printing, but are subject to change. As often as possible, we negotiate better pricing and pass the savings on to you, while at the same time, market fluctuations can occasionally cause the prices of certain items to increase slightly. Please visit our website **http://cableorganizer.com** or contact our customer service department toll-free at 866.222.0030 or e-mail us at **sales@cableorganizer.com** for the most current pricing and volume discounts available

Cord Protectors by Wiremold

KW: cp-wiremold

This wire cover system by Wiremold is the ideal way to keep from tripping on loose cables and cords running across a walkway or behind your desk. Covers, hides and protects cords and cables while keeping floors clear and safe. It lays flat and stays flat. Easy to install.

CableOrganizer.com stocks the black model 1400 in 5' lengths, but we can have any size or color delivered to you within a few days.

Cable Protectors are very easy to install. There is a slit on the bottom of the rubber strip that easily opens up for cord insertion. Use double-sided tape to secure them in place on the floor.

- Slit underside for easy wire installation
- Conceals and protects wires and cords
- Creates a smooth, trip-free surface instantly
- Keeps floor clear and safe, preventing run-over accidents
- Cuts to any length with scissors or utility knife
- Provides great cable protection
- It lays flat and stays flat
- They are available in 5', 10', 25', and 50' lengths and in beige, black, brown, and gray
- We also have high-visibility yellow available in 50' lengths
- From $12.99

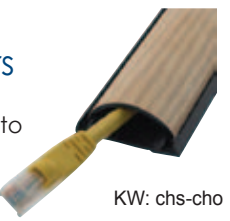
Floor Cord Cover Kit

KW: floor-cc

With a rounded surface that helps carts and feet move over wires without snagging or crushing them, our floor cord cover is the ideal way to prevent trip-and-fall accidents on loose cords running across your home or office. Cover, hide, and protect cables while keeping floors clear and safe.

- Low profile - prevents tripping on cords
- Conforms to uneven floors
- Hides unsightly cords
- Complete with double-sided tape and a pre-slit channel. Ready to go!
- From $9.99

ChordSavers™ Chordsaver™ Cord Covers



KW: chs-cho

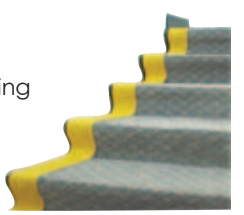
- Designed for small applications, up to (4) 0.25" cables
- Hard PVC body provides great protection from foot traffic
- Various colors to match different floor types, including a custom stainable wood finish
- Dual, tacky non-skid rubber backing to secure in place
- From $21.99

Transparent Cord Protector

KW: tran-cp

- Can be used for holiday lights, movie theater lighting, amusement parks, walkways, patios, or even nightclubs
- Ideal way to keep from tripping on loose cables and cords
- Cuts easily to any length with utility knife
- Applies to any flooring surface with double sided tape or VELCRO® STICKY BACK® Tape
- From $19.99

Safcord Cord Cover



KW: safcc

- Low profile design to prevent tripping hazards
- Flexible fabric allows for use on stairs or curved surfaces
- Made of strong Cordura Nylon for durability
- Uses hook and loop instead of adhesives, so no residue is left when removed
- Available in black, blue, taupe, gray, and yellow
- From $30.00

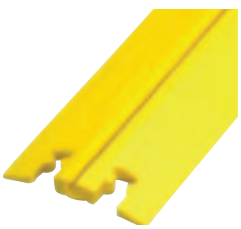
Defender Compact Cord Cover

KW: defccc

The Defender Compact is an efficient way of covering and protecting your cables. The molded supports allow the Defender Compact to be laid over a run of cables up to 31.5" in length. The durable polyurethane has a ribbed, rubber-like surface to provide traction and prevent slipping. Designed specifically for indoor use.

- (7) ducts to organize and separate cables
- This simple low profile solution can accommodate cables up to 1.2" in diameter
- Price $74.50

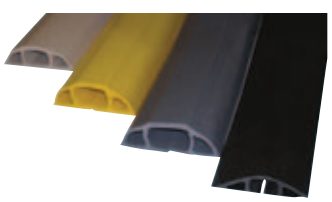
Fox™ Single Channel Cable Protector



KW: fox-sccp

- Modular to fit any application at fairs, expos, and concerts
- Cables are top loaded
- Arched channel design provides maximum load bearing capacity and protection (20,150 lbs/axle)
- Low profile to prevent tripping hazards (starting at only 1.25" high)
- From $125.00

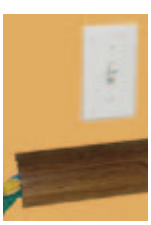
Flexiduct Cord Protector



KW: flexiduct-cp

- Cover, hide, and protect cables while keeping floors clear and safe
- Flexible: contours to the shape of the ground for a smooth fit
- Available in (5) colors to match any décor
- Flame and abrasion resistant
- Pre-split for easy cable insertion
- From $17.99

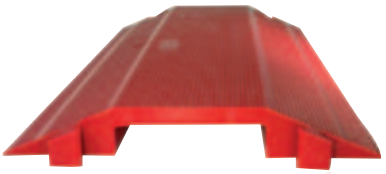
ChordSavers™ WallSaver™ Wall Cord Protectors



KW: chs-wal

- PVC body offers protection and allows for fast drilling through the base for easy mounting
- Wide channel holds up to (8) 0.25" cables
- 3' sections interconnect to any desired length
- Snap-on cover comes off easily for maintenance
- Wood finish and (6) colors available
- From $32.09

Dropover Cableguard



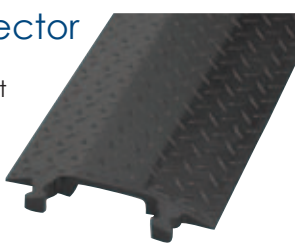
KW: cable-gd

When it comes to high pedestrian traffic areas like offices, schools, computer labs, warehouses, and retail stores, these light-duty dropovers provide reliable protection and temporary housing to floor-level cords and cables. Sturdier than industry leading cord covers and expandable like our heavy duty cable protectors, they offer great versatility. Because they interlock with one another, you can add as many or as few as you need. Made of quality polyurethane, they are very durable and an indispensable companion to any smooth floor surface. The ED 1010 is a medium duty dropover. It safeguards cords and cables in plants, malls, retail stores, parking lots, fairs, expos, etc...

- Prevents tripping on cords; great for indoor traffic
- Super wide channel (up to 7.75")
- Least expensive polyurethane dropover model
- Easy set up and take down
- Can be cut easily with a common saw
- Flexible material conforms to the ground
- Interlocks for minimum movement
- Diamond plate raised texture for maximum traction
- UV resistant for longer lifespan
- From $39.99

Part #	Total Length	Total Width	Total Height	Load Capacity
CPCG-D-1050	36"	5.25"	0.75"	1000 lbs/tire
CPCG-D-1010	36"	10.75"	1.5"	7500 lbs/tire
CPCG-D-8200	36"	19.75"	2.875"	5000 lbs/tire

DO-Lite™ Cable Protector



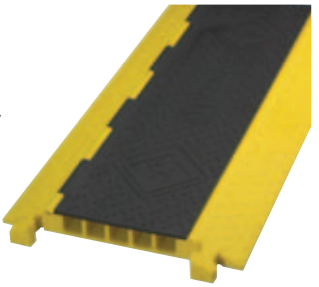
KW: do-lite-cp

These dropovers are the perfect solution for those pesky cords and cables that can be found in your home, office, garage, warehouse, retail stores, etc. Wherever there are cables and cords along with pedestrian traffic, there should be one of our light duty dropovers. Sturdier than other light duty cord covers, the DO-Lite is very versatile. Due to the T-Bone connectors, the length can be extended to protect the longest of cable runs!

- Cable protection for indoor and outdoor use
- Made of polyurethane
- From $34.99

CABLE PROTECTORS

Bumble Bee® Cable Protector



KW: bumble-cp

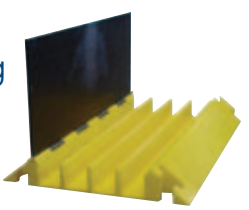
The Bumble Bee is a light-duty and affordable cord, cable, and hose protector that is very easy to set up. The polyurethane construction of the Bumble Bee cord protector provides resilience, sturdiness, and impact resistance. The Bumble Bee cable protector has a cautionary yellow and black color, with diamond plated texture for safety. T-connectors make the Bumble Bee easy to assemble and take apart following the cable protection application.

Bumble Bee cord and cable protectors are designed for high volume foot traffic, and can handle low speed small vehicle traffic. They work great for indoor events and conventions.

The Bumble Bee cable and cord protector series offers four modular parts to provide flexibility in cable management. In addition to straight sections, X and Y components are also available. The "Y" (CORNER) component allows you to split or join cable pathways. The X (CROSS) component facilitates intersections.

- Industry recognized yellow and black design
- Rounded dividers prevent cable pinching
- Cheaper than other high capacity models
- Cast molding increases strength
- Diamond tread pattern provides traction
- Flexible fiberglass pin will not rust or swell
- Available with T-Bone or Dog-Bone Connectors; Dog-Bone connectors are compatible with other dog-bone cable protectors
- From $134.99

Bumble Bee® GM General Manufacturing

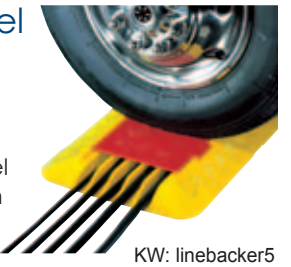


KW: bumble-gm

The Bumble Bee GM is a great solution for plants or manufacturing facilities. The bright yellow color and black lid help to make it extra visible for use in such environments.

- Durable, impact resistant, and non-conductive
- Non-skid surface
- T-Bone connectors to hold protectors together
- Oil and solvent resistant
- Requires no tools for installation
- X and Y Intersections for changing direction
- Up to 30,000 lbs per axle load bearing (in testing)
- From $404.00

Linebacker® 5 Channel Cable Protectors with T-shaped Connectors

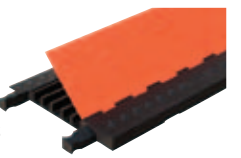


KW: linebacker5

The Linebacker GP-5 five-channel cable and cord protector system is the perfect solution for temporary events such as fairs, festivals, conventions, and any other public setting in which there are cords and hoses that must cross high-traffic areas.

- Stands up to 21,000 lbs per axle of vehicle traffic
- Durable polyurethane construction resists weather and material abrasion
- Price $145.99

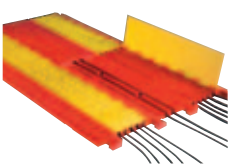
Guard Dog® Heavy Duty Cord Protector



KW: guarddog-cp

- Ideal solution for temporary events such as fairs, conventions, and trade shows; NEC compliant
- Protects cables and hose lines up to 1.3" in diameter
- Patented 5-bar tread surface provides maximum traction
- Lightweight and easy to transport, set up, disassemble and store
- Price $145.15

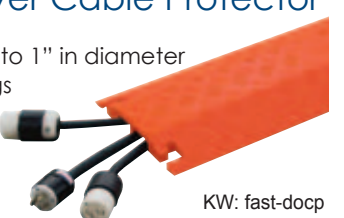
Cross-Link® Protector Bridges for Guard Dog® and Linebacker® Cable Protectors



KW: cross-gd

- Provides two additional 1.5" cable channels between cable protectors
- Fills in gaps to provide a continuous crossing surface
- Quick, easy, one-person installation
- Can be used with Cross-Guard® ADA compliant ramps
- Price $191.61

FastLane® Drop Over Cable Protector



KW: fast-docp

- Protects wires, cables up to 1" in diameter
- Molded-in safety warnings
- Easy to set up and break down for storage
- Heavy duty "L" shaped connectors
- High traction surface tread
- An economical solution that's great for shopping malls and industrial areas with foot traffic
- From $31.17

cableorganizer.com

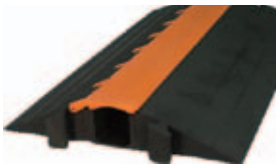
Single Channel Cable Guard®

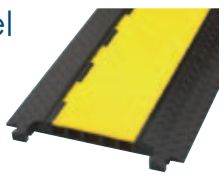


KW: single-ccg

The Cable Guard offers heavy protection for construction and utility applications. The entertainment industry uses the Cable Guard to protect power and telecommunications cables from automobile and pedestrian traffic.

- Flexible guard contours to the shape of the ground
- Polyurethane makes it ideal for cold weather
- Lighter weight than competitors - easier to handle
- Built-in handles on each side of the ramp for easy transport and installation
- Also available in 2, 3 and 5 channel designs
- From $219.99

Yellow Jacket® 5 Channel Cable Protector



KW: yellow5ccp

- Extra heavy-duty, great for use with vehicular traffic
- Made of Durathane®, a proprietary cast-molded polyurethane with superior tear and abrasion resistance
- Extra long lasting: Yellow Jackets have proven durability over 20 years of heavy use
- Also available: Yellow Jacket with Hiperthane®
- From $213.00

Diamondback® - Modular Hose Bridge Systems

KW: mod-hbs

- Polyurethane construction for abrasion and impact resistance, and high load bearing capacity
- Multiple tunnel choices to accommodate fully charged hose lines of various diameters
- Modular interlocking design easy to transport, set up, break down, and store; multi-length configurations.
- Great for fire rescue trucks
- From $311.50

Crossover™ Cable Protection Extreme Duty

KW: crossover-cped

- Non-conductive
- Self-extinguishing material
- Made of multiple layers of Hiperthane®, expanded metal, and composite graphite
- 0.5" proof-coil chain
- Custom-built for mining and other ultra heavy duty applications
- Call for quote

Yellow Jacket® Advanced Modular System

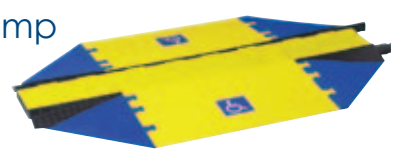
KW: yj-ams

Yellow Jacket® AMS is an advanced modular system that is designed to change and grow with your cable management needs.

This modular system allows you to protect anywhere from 5 to 50 additional cables or hoses. Center sections can be added or removed to suit your changing needs. Each change expands or condenses the space needed for your cables.

- Modular sections can be added or removed to change length or width
- Adaptable: sides can fit flush against walls or interlock with another section
- Stable surface doesn't wobble, slip or slide
- Assembled section exceeds requirements for the maximum legally allowed axle weight of 23,000 lbs
- Allows you to add on WASP™ AMS™ ADA compliant ramps
- Compatible with 5-Channel Yellow Jacket
- Easily customizable
- Ideal for areas with limited floor space
- Great for forklifts, small vehicles, and heavy foot traffic
- ⅜" thick lid and base
- Gap-free connections between parallel sections result in level surfaces that reduce the risk of pedestrian trip-and-fall accidents
- Space efficient: has the largest cable capacity in the smallest footprint available
- Proprietary Hiperthane® material provides the elasticity needed for superior resistance to tears and abrasion
- Sections snap together with a simple footstep
- From $169.00

Yellow Jacket® WASP™ AMS™ - Wheelchair Ramp

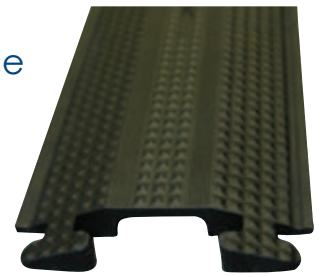


KW: wheelchair-yj

The WASP AMS is an innovative ramp system that accommodates expansion for extra wide ramps. The highly stable system locks together using Hipersnap™ and eliminates the necessity for side rails.

- The ramp can be easily accessed using carts, dollies, and wheelchairs
- These ramps meets all ADA guidelines, and display the ADA wheelchair symbol
- These wheelchair ramps are easy to assemble as they snap into place quickly and easily
- From $270.00

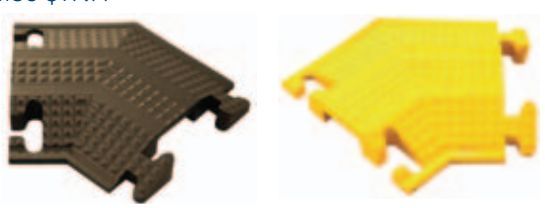
Floor Cord Cover for Home and Office



KW: floor-cho

The Home and Office Cord Cover is a light duty, inexpensive cord cover with many of the features of heavy duty models. The cord cover/cable protector has a low profile channel size (1.5" W x 0.5" H) and still provides great walk-over traffic protection for your cords and cables. The Rubber Home and Office Cord Covers can be used individually to provide a 5' length of protection, or they can be joined together with the T-Connector system to form the required length to protect your cable run. The T-Connector ends are simple to join together to form any length. Protect your office, warehouse, home, or garage power cords, telephone lines and cables from walking traffic with these handy drop-over covers.

- Black, yellow, gray, or brown colored rubber
- Interlocking for minimum movement
- Diamond plate raised texture for maximum traction
- Lightweight and easy to set up and break down
- Ultra-compact design for quick storage
- Low profile
- Modular
- Price $19.99



Left & right corners help protect the entire run of wires

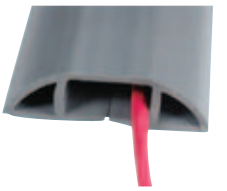
Rubber Ducts

KW: rubber-d

These rubber duct systems are the ideal way to keep from tripping on loose cables and cords running across a walk way or behind your desk. They cover, hide and protect cords, wires, and cables while keeping floors clear and safe. Rubber Ducts lay flat and stay flat. Easy to install.

- Easy to install and lay flat
- Available in 5', 10', and 12' lengths
- Ideal for home or office traffic
- D-200 and D-300 series handles small to mid-size vehicle traffic
- From $19.90

Cheap Light-Duty Cord Covers



KW: cheap-cc

Cover, hide and protect your cables and cords while keeping floors clear and safe. Their trim design provides a low profile, from 7⁄16" to ¾", and is nearly inconspicuous. This helps to reduce the possibility of tripping over exposed cords, wires, or cables.

- The cord covers come in 5', 10', 15', 25', and 50' lengths
- Pre-slit for convenience and easy cable insertion
- Multiple color options to customize your application
- From $7.33

Medium Sized Drop Over

KW: med-drop

- For applications such as warehouses, garages, etc...
- Interlocking ends for unlimited length
- Drop over design for easy set up
- Raised tread for slip resistance
- Ideal for foot traffic and small carts
- Available in 2-channels (1.75" x 1" each) with enough space for small hoses as well as network and power cables
- Price $19.99

Electriduct Power Data Extensions

KW: elec-ext

- Allows you to quickly and conveniently set up a workstation just about anywhere
- Built-in cord cover protects cables and reduces tripping hazards in your home, office, or conference room
- EMI-shielded power and data cords help eliminate crosstalk and distortion
- From $39.99

Economical Wiring Duct

KW: eco-duct

- Made of heat-resistant PVC (up to 85°C)
- 2 meter length (6.6') fits most computer cabinets
- Easily cut to length with a wire duct cutter
- Covers included
- (2) pre-drilled holes (one large and one small) every 4" to 5"
- Cases from $69.99

cableorganizer.com

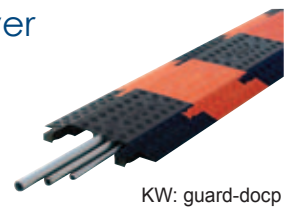
Guard Dog® Flat Edge Protector with Dog Bone Connectors

KW: guard-fep

This 5-channel protector fits flush to walls, stages, or curbs to prevent tripping hazards. Used at amusement parks, entertainment and sporting events, and in most industrial, construction, and utility applications.

- Flat edges fit tight against walls
- Hinged lid for easy cable placement
- Safety warning symbols molded into lid
- Heavy duty "Dog Bone" connectors
- Carrying handle recessed underneath

Guard Dog® Drop Over 3 Channel Protectors

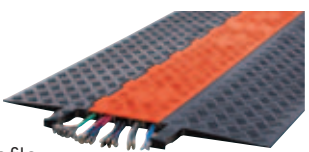


KW: guard-docp

Protect pipes, conduits, cables, and hose lines mounted to the ground or floor. This 3-channel protector features (1) standard and (2) extra-wide channels to accommodate various quantities and sizes of lines.

- Price $72.99

Guard Dog® Low Profile Protectors



KW: guard-lpp

These 5-channel, heavy duty, compact Guard Dog® Low Profile Cable Protectors are the lowest-profile, top-loading, multi-channel cable protector on the market! Low profile design features ADA compliant ramps to provide safe crossing of vehicle and pedestrian traffic.

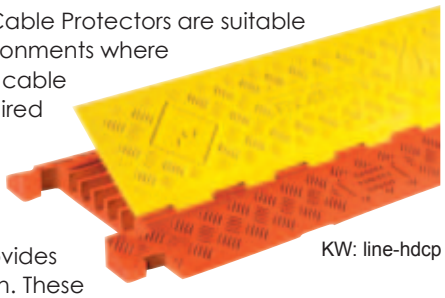
- Heavy duty "Dog Bone" connectors
- Satisfies state and federal regulatory agencies

Cross-Guard® ADA Ramps & Rails

KW: cross-guard-ramp

These Cross-Guard® ADA Compliant ramps and rails feature a gentle slope, slip resistant ramps, and heavy duty rating to provide a safe crossing point for wheelchairs, vehicles with small wheels, heavy carts, and forklifts. Can also be used in conjunction with Cross-Link® Protector Bridges. Cross-Guard® Rail Barriers provide ADA compliant edge protection. Components start at $199.99

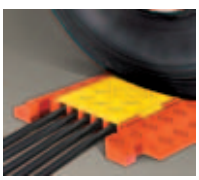
Linebacker® Extra Heavy Duty 2, 3, 4, 5 Channel Systems



KW: line-hdcp

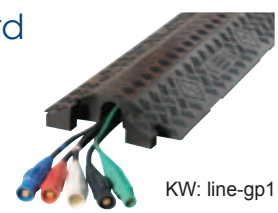
Linebacker® HD Cable Protectors are suitable for industrial environments where extra heavy duty cable protection is required due to constant heavy truck and vehicle traffic. Patented 5-bar tread surface provides maximum traction. These 2, 3, 4, and 5-channel cable, cord and hose line protection systems satisfy requirements for state and federal regulatory agencies.

- All weather polyurethane construction with heavy load capacity
- Non-metallic protectors insulate cables/hose lines from human contact
- Multiple channels and sizes accommodate various cable/hose line diameters
- Hinged lift cover makes placing and removing cable/hose lines easy
- Modular interlocking design is lightweight and easy to transport, set up, disassemble and store



Linebacker® HD 4 or 5 Channel - protects cable and hose lines up to 1.25" outside diameter. From $183.36
Linebacker® HD 3 Channel - protects cable and hose lines up to 2.25" outside diameter. From $272.99
Linebacker® HD 2 Channel - protects cable and hose lines up to 3.25" outside diameter. From $299.00

Linebacker® GP-1 Cord Protector



KW: line-gp1

Single Channel Systems protect valuable electrical cables, cords and hose lines from vehicle and foot traffic. Small, compact, low profile design allows for ease of storage and transport to job site. Popular with many utility, construction, and maintenance companies. Ideal for temporary re-routing of single cable and hose lines, including fragile fiber optic telecommunications cable.

- Withstands up to 21,000 lbs per axle of vehicle traffic
- 5-bar tread on surface gives pedestrians excellent traction to prevent slip-and-fall accidents
- Price $119.00

From J-channels and home theater wire managers to EMT conduit and wiring duct, every type of raceway out there is built with two things in mind: routing cables and wires from one place to another, and keeping them hidden and protected along the way. Whether you need an adhesive surface raceway to run A/V cables along your living room wall, or are looking for a flexible carrier to protect hoses and wiring on automated machinery, you'll find it all at CableOrganizer.

For additional cable raceway products, visit us at:
http://cableorganizer.com/surface-raceways/
or call us toll-free 24/7 at 1-866-222-0030

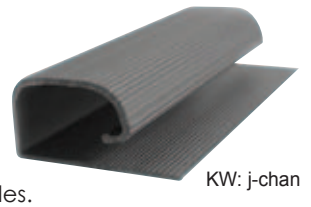
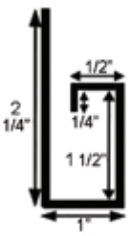
J Channel



KW: j-chan

This cable trunking encloses your wires on three sides, with the top of the channel remaining open for easy installation and access to cables.
The J channel has a self-adhesive back that can mount vertically or horizontally on furniture, baseboards or walls.



Adhesive Base Height: 2¼"
Channel Height: 1½"
Channel Depth: 1"
Length: 48"
Price $11.99

Cord Coverup Silk Cord Covers

KW: silk-cov

- Unique design conceals chandelier and lamp cords for a more elegant and polished look
- Chandelier style (AM-300) has hook and loop sewn in to make installation and changes easy, without unplugging cords or cables
- Made in the USA out of 100% Dupioni silk
- From $22.50

Flexible Cord Tower and Cable Elevator

KW: cab-elev

- Reduce hazards to cables from disorganization and dust build-up
- Stylish looking and easy to install
- Increases safety - both products protect animals and/or small children from the risks of chewing or pulling on cords
- Links can be removed to reduce the height
- ABS plastic material
- From $19.00

Belkin USB Hub Grommets

KW: usb-grom

- Removes USB cord clutter from your desk
- Mounting grommet ring provides a point for under-desk cables to pass through
- Quick access to USB ports for plugging in mobile devices, cameras, and flash drives for data exchange
- Devices are plugged directly into your desktop to save time and eliminate the need to climb under your desk to reach USB ports
- Price $42.99

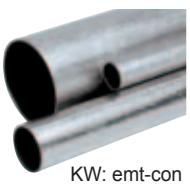
Flexible Steel Conduit

KW: steel-cond

With superior crushproof qualities and a spiral-wound design of corrosion/rust-resistant hot-dipped galvanized steel, our flexible steel conduit is suitable for use as a concealed or exposed raceway. Flexible steel conduit is wire temperature rated, has a smooth metal interior that facilitates wire pulling, and conforms to UL1 dimension requirements for flexible metal conduit.

- Smooth interior for easy wire pulling
- Able to withstand high temperatures
- Durable crush-proof construction
- From $33.99

EMT Conduit



KW: emt-con

Steel Thinwall EMT conduit is easy to cut and easy to bend - reducing waste and installation time. Metal conduit is non-combustible and easily adaptable to future wiring changes. A proven equipment grounding conductor, this conduit can reduce electromagnetic fields by up to 95%.

- Easy to cut and bend
- Metal conduit is non-combustible
- Volume pricing available

Greenlee 8600 Conduit Cutter

KW: con-cut

- Replaceable cutter wheel
- Easy to grip spindle knob won't hurt your hand
- Cutter body is heavy-duty cast for long life
- Length fully open: 8¼" (210 mm), length fully closed: 7" (178 mm)
- Cuts ½" and ¾" diameter EMT electrical conduit
- Price $38.71

Kwikpath™ Riser Raceways

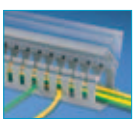
KW: kp-riser

- Meets all building regulations, and is also the first UL 2024 riser approved raceway and fitting combination on the market
- Easily identifiable mandarin orange color keeps contractors from damaging cables during renovations
- Reduces long runs of riser raceway around tight corners with the industry's first Y coupler
- Available in Plenum grade, with a full line of accessories
- From $101.12

PANDUIT Panduct®

KW: wir-duct

- Dual hinge design opens 100° from either side to allow easy access to cabling
- Push-on cover saves time during installation to reduce maintenance and installation costs
- Ideal for use in locations where frequent wiring changes, additions, or equipment upgrades occur
- Available in wide slot, narrow slot, and solid wall styles

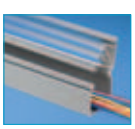


H HINGED COVER WIDE SLOT WIRING DUCT

PANDUIT's Type H Wiring Duct is ideal for environments prone to frequent maintenance or wiring modifications. The dual hinge design allows you to quickly and easily access cables or wires in control panels and communication closets. Volume pricing available

HN NARROW SLOT HINGED COVER WIRING DUCT

Type HN Wiring Duct from PANDUIT is ideal for environments where the management of high density cabling is a concern. Frequent slots and breakout points paired with the hinged cover provide hassle-free cable access. Volume pricing available



HS HINGED COVER SOLID WALL RACEWAY

Equipped with a dual hinged cover to allow quick and easy access to cables or wires in long cable runs. The channel design fully encloses wiring to provide maximum protection against environmental conditions. Volume pricing available

Noryl Wiring Duct

KW: noryl-duct

- Choice of open slot, closed slot, or solid wall styles
- 0.75" slot pitch
- 0.31" slot width
- Covers included
- Available in black
- Volume pricing available

SPECIFICATIONS	
Material	Self-extinguishing Noryl Xtra, zero halogen, low smoke
Service Temperature	-22°F to 212°F (-30°C to 100°C)
Standards	Base slots to DIN 43659 base slots to DIN 43659
Flammability	UL 94V-0 rated material
Approvals	UL, CSA Register

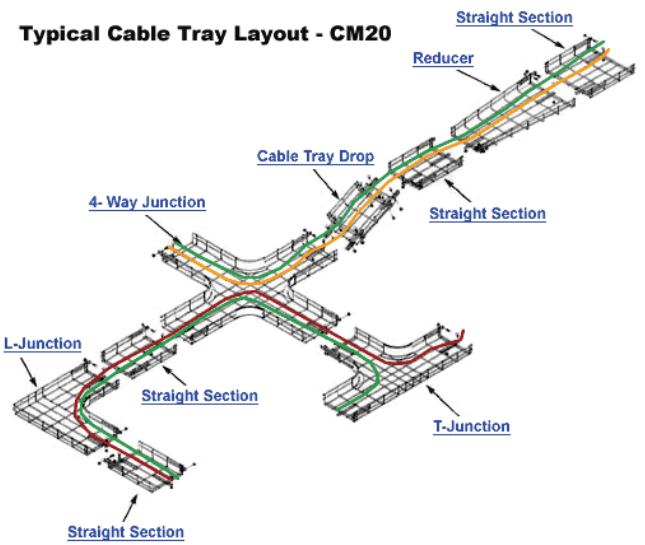
CM20 Wire Cable Tray System

KW: cm20-wcts

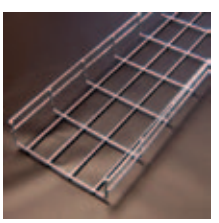
With a 2" x 4" grid pattern that can handle a wide variety of heavy duty cable tray load capacities, the CM20 Wire Cable Tray System is ideal for most cabling applications, including power and data.

The CM20's unique self-bonding design makes it unnecessary to bond sections or install a separate ground wire, and meets or exceeds UL 12 L.C. grounding of conductive equipment.

- Available in standard widths of 6", 8", 12", 18" and 24"
- Lengths can be ordered in 1', 2,' 5', 8' and 10' with a depth/height of either 2" or 4"
- Call for project quote



M.E.2 Cable Tray System



KW: me2-tray

With a zinc-plated steel wire design, M.E.2 cable trays are a sturdy and easily customizable solution for suspending cable runs from ceilings, mounting them along walls, or routing them beneath raised floors. Available in 7' and 10' lengths, M.E.2 cable tray sections can be cut to size at the jobsite with nothing more than an offset bolt cutter.

- Constructed of 0.187" diameter zinc plated wire, welded into a 2" x 4" grid
- Cut to size by hand with offset-blade bolt cutter
- Sections can be grounded by connecting them with splice washer kits or connecting loops
- Call for project quote

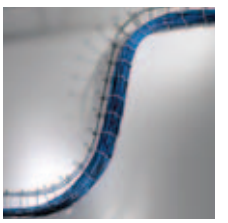
201 Series Snake Tray

KW: ssnake-201

Available in four different sizes, the 201 Series Snake Tray has a single-pocket design that can accommodate up to 24 square inches of cable path – equal to a 12" basket or ladder-type tray, or 250 cables! In order to comply with NEC Article 318-9(b), the Snake Tray 201 has a 0.25" OD. Available in a single or double Snake Tray configuration.

- Available accessories:
  - Universal 201 Series Intersection
  - Universal Tray Connector Bolt
  - Cable Drop-Out Waterfall
- From $59.00

501 Series Wall Snake Tray



KW: snake-t501

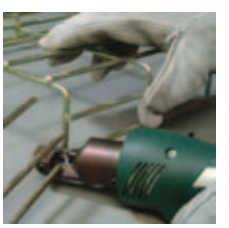
- Designed to allow the tray to be directly attached to a wall without the use of brackets
- The tray uses integrated mounting rings located along the center spine of the tray
- Made of cold rolled steel (ASTM A510), then zinc plated (ASTM B633C2)
- From $41.50

601 Series Ladder Snake

KW: snake-t601

- Made of cold rolled steel (ASTM A510), then zinc plated (ASTM B633C2)
- Hand bend the cable tray over any obstacle "JUST BEND IT AND DROP IT IN"!
- Use either both below raised floors or overhead, either mounted to walls or suspended from the ceiling
- From $107.75

Gator ETS8 Battery Powered Tray Cutters



KW: tray-cut

- Cuts cable tray wire up to 0.3125" in diameter in 2 seconds
- Automatically retracts blade after cutting is complete
- Makes flush cuts without burring
- Saves time and energy during installations
- Lightweight -- weighs only 3 lbs.
- Cutting head rotates 330°
- Long-lasting battery makes 250 cuts per charge

Igus® Triflex® EZ Access

KW: igu-tr

Triflex® from IGUS® offers great flexibility for intricate runs around machinery. Designed with that purpose in mind, this product can bend and twist up to 360° per yard, making it the most versatile cable and hose carrier ever. Available mounting brackets help you guide the Triflex® around extreme turns, and its performance will help your production line stay safe and easy to maintain.

- Easy to open for simple and fast installation/ maintenance
- Impact resistant, dirt repellent, rugged, and abrasion resistant
- Call for project quote

Igus® E-Chain® Series 15 Zipper

KW: igu-z

- Zipper-like design for quick opening and closing to provide easy cable access and maintenance
- Mounting brackets with strain relief for more durability
- Various bend radii to accommodate just about any installation
- Limited bend radius protects cables for optimal performance
- Call for project quote

Igus® E2 Medium 240/250 Series Cable Carriers

KW: igu-e2

- Snaps open and is dual hinged to the left or right for easy access
- Available with access through inner or outer radius for your convenience
- Tapered insertion point for easy assembly
- Limited bend radius protects cables for optimal performance
- Call for project quote

Igus® E2 Medium 26 Series Cable Carriers

KW: igu-e26

- Stability on a moderate size chain for security
- Holds cables up to 1.26" diameter to suit larger applications
- Integrated strain relief helps performance and protects the integrity of your cables
- Limited bend radius protects cables for optimal performance
- Call for project quote

IGUS® E08 Series E-Z Chain

KW: igu-e

With over 30 years of proven performance excellence, IGUS E-Chain carrier systems are widely used to guide and protect cables and hoses on automated machinery like medical lab equipment, extendable trailers, telehandlers, packaging machinery and machine tools. A lightweight and maintenance-free carrier, the E-Chain prevents cables from breaking, corkscrewing or tangling.

- Protects hoses and cable from debris such as wood chips or metal shavings, and from being pinched or shut off during use
- Cost effective because 2 axes can be realized with one carrier
- Smart design and small pitch for fast and easy access
- Made from strong material (igumid NB) for torsional rigidity and torque resistance
- Specifically constructed for quiet operation (12dB less than a conventional chain)
- Ability to handle high-capacity loads
- Multi-axis movement for a faster operation
- Withstands temperatures from -22°F to 212°F (-30°C to 100°C) for use in extreme conditions
- Call for project quote

SPECIFICATIONS	
Material (chain)	igumid NB

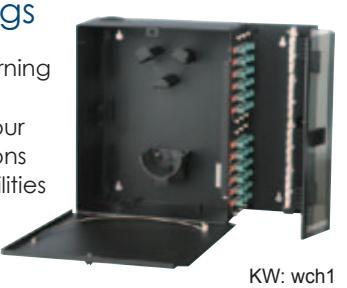
Corning Wall-Mountable Connector Housings



The optimized design of Corning Wall-Mountable Connector Housings (WCH) provides your network with interconnections or cross-connection capabilities between optoelectronics and outside-plant, riser and distribution cables.

KW: wch1

- Suitable for loose tube and tight-buffered fiber optic cables
- Metal cabinet construction
- Jumper routing guides and jumper strain-relief point
- From $75.65

Hoffman FTTX Fiber Optic Cabinets

- Manufactured from 0.125" thick aluminum
- Seams continuously welded and ground smooth
- Heavy gauge continuous hinge
- Outdoor-grade polyester powder paint finish
- NEMA/EEMAC Type 3, 3R, 4, 4X, 12
- Standard pitched roof promotes water runoff

KW: hoff-fttx

Middle Atlantic PTRK Portable Rolling Racks

- Fully welded 16-gauge construction for strength and durability
- Smooth-rolling 4" heavy duty locking cushion casters
- Available in 14, 21, and 27 rack space heights with 2 depths available: 23" and 26"
- 500 lbs weight capacity
- Great for recording studios
- From $458.91

KW: ma-ptrk

Outdoor Cabinets

- Manufactured with 0.1" aluminum for superior corrosion resistance
- Painted with durable light beige powder coat for attractive appearance in harsh environments
- Double roof construction for protection from solar heat
- Lifting eyelets for ease of installation
- Craft-friendly cabinet provides easy access for equipment integration

KW: out-cab

Kendall Howard - Wall Mount Racks

With a rugged steel truss frame that installs in under 5 minutes and a high load capacity of 250 lbs, Kendall Howard's Wall Mount Racks are strong enough to use in any small network situation. The rack is pre-tapped with #10-32 rail holes for fast equipment installation, and has a universal configuration that allows it to be mounted not only to walls, but ceilings and desks as well.

KW: kh-wmr

- Desk, wall or ceiling-mountable
- Side cutouts and universal mounting holes make just about any configuration possible
- From $148.00

Middle Atlantic Home Theater Rack SRSR Series - 19" Rotating Sliding Rail System

KW: ma-rack

- Up to 300 lbs load capacity
- Removable rack frame allows in-shop integration and on-site installation of equipment
- Comes in 19" and 23" depths
- From $435.00

Chatsworth Standard Rack (2 Post)

KW: chat-rack

- Aluminum construction supports up to 1000 lbs while still weighing less than 40 lbs
- Smallest size (20.3" x 15") is a great choice for telecommunications and equipment rooms
- Numbered mounting positions simplify equipment positioning and installation
- From $130.00

Middle Atlantic Cable Ladders

KW: ma-ladder

- A&E Spec. 96-986
- Ladder sections: 187 lbs weight capacity per foot, based on a 4' support span
- Scratch and corrosion resistant
- Fully welded with two layers of durable black powder coat finish
- Made in the USA
- Call for project quote

Knockdown Open Frame Rack

KW: kh-4post

The new 41U Knockdown Open Frame Rack from Kendall Howard is taking the server rack industry by storm, and it's not hard to see why: shipping in just one flat-pack box, Kendall Howard delivers one of the strongest adjustable knockdown racks manufactured today. With a rock solid patent-pending square tube steel design that provides unparalleled strength, and assembly requirements that don't go beyond a few bolts, this racking system is a versatile and affordable solution.

- Assembles in less than 20 minutes
- 41U, 36" deep
- Fully adjustable rails from 6" to 36"
- Made of 16-gauge tube steel for superior rigidity
- 0.9 gauge steel rails
- Levelers included
- Cage nut style rails (cage nuts and rack screws)
- Great solution for big offices
- Heavy duty black powder coat finish
- Ships in (1) box
- Load capacity: 1000 lbs
- 5-year warranty
- Made in the USA
- Great Value
- Holds (6) servers, KVM switches, UPS/surge protectors, and wire racks easily
- Almost always ships within 24 hours
- Price $432.00

Open Frame Aluminum Relay Racks 19" and 23"

KW: ofar-rack

Bud Industries' racks are designed with one thing in mind: easy network installations. With a load capacity of 1000 lbs and a design that provides you with convenient access to equipment, these racks are built for years of solid, trouble-free service. And while they're economical, these Bud Industries racks haven't compromised on quality.

- 1000 lbs load capacity to reliably hold your computer or other heavy equipment
- These quality aluminum racks are available in (2) heights: 50"and 84"
- From $136.50

Kendall Howard 8U/12U Compact Series SOHO Server Rack

Specifically designed for the IT professional who wants better than just "good enough," Kendall Howard's sleek and robust SOHO Compact Server Racks are ideal for housing computer network equipment in tight environments like small businesses and home offices.

KW: kh-soho

With casters, lockable lift-off mesh doors and adjustable rails, these low profile enclosures are easy to transport, well ventilated, and extremely versatile. Available in 8U and 12U heights.

- Compact and versatile – a great rack solution for small businesses
- Cold rolled 16-gauge steel can hold up to 400 lbs
- Built with riveted frame and (4) rack angle gussets
- Ultra quiet fan included and installed
- Venting on all sides provides ample airflow
- Increased security with lockable doors
- Fast access to internal units through the removable doors (both front and back)
- Easy to configure with adjustable rails and universal mounting holes
- Easy to transport with casters (included)
- Cabling knockout at base of cabinet
- 19" rack accessories can be mounted in these SOHO cabinets
- Made in USA
- From $538.20

Great Lakes Deep Wall Mount Swing Out Cabinets

These 32" deep wall mounts are both versatile and easy to equip. They are manufactured in the USA and made of steel, with your choice of an optional plexiglas or steel door.

KW: gl-swingout

- Includes (2) pairs of fully-adjustable, #12-24 tapped, 19" EIA rails
- Incredible maximum depth of 30" for larger components
- Effortless removal of back panel allows for simple rear installations
- From $769.73

Middle Atlantic EWR Series 19" Wall Mount Rack

The Middle Atlantic EWR pivoting wall cabinet is an economical choice for installing smaller systems, yet it is unparalleled in its quality for use in both secure and non-secure environments.

KW: ma-ewr

- No tools are required with the new Tool Free Quick Mount™ system, which allows one person to easily mount the cabinet to the backpan on the job site
- Available in 17" and 22" useable depths
- Made in the USA
- 150 lbs standard weight capacity
- From $261.19

Wall Mount Rack Fixed Design

- 19" wall mount design lets you rack mount equipment while saving valuable floor space
- Mounting brackets made of rugged 14-gauge laminated steel
- 3" x 3/16" U-shaped rails are tapped in the front and rear to accommodate #12-24 rack screws
- EIA compliant spacing
- From $98.51

KW: wmr-fix

Kendall Howard Wall Mount V Rack

- Takes maximum advantage of small spaces; mount servers, modems or any equipment horizontally or vertically
- Supports up to 200 lbs
- Mounts on a wall or under a desk
- Made of 14-gauge CRS (cold rolled steel)
- Available in 2U, 3U or 4U sizes
- Made in the USA
- From $78.36

KW: kh-vrack

Middle Atlantic Hinged Panel Mount

- Hinged to provide rear access
- Universal keyhole mounting for left or right swing
- #10-32 rack screws included
- Simple and straightforward wall mounting of rack mount equipment
- Heavy-duty 11-gauge rack rail with tapped #10-32 holes in universal EIA spacing
- Smooth cutout in the rear for pull through cable routing
- From $24.25

KW: ma-hing

Lake Effect® Enclosures from Great Lakes

Thermal patented technology makes Great Lakes' Lake Effect Enclosure the solution for all your networking needs. This Enclosure eliminates the use of refrigerants or coolants in your data center environment.

- Lake Effect base unit with (2)pairs of powder coated 19" universal M6 rails, M6 hardware, shipping pallet, and (2) sets of power strip brackets
- Optional Retro-Fit Kit can bolt into any standard 19" EIA rack – uses bottom 7 RMUs only
- Call for project quote

KW: gl-lake

Great Lakes S² Series Complete Sound and Security Enclosures

- (4) Fully adjustable EIA compliant rails are tapped for #10-32 mounting screws, with optional cage nut mounting available
- Mounting hardware included
- Reversible hinge doors, front and rear, for left or right opening
- All doors have keyed lock swing handle
- Call for project quote

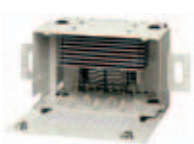
KW: gl-s2

Co-Location Floor Enclosures

- Each section is individually keyed so that it can be independently accessed via its respective door
- Individual cable access points for each section
- Removable side and rear panels are equipped with dual latching keepers, and keyed for additional security
- Top panel cutouts for fans and cable access. Includes (2) ventilation fans

KW: cl-fe

Leviton DPS Optical Splice Enclosures



- Compatible with Leviton standard splice trays
- Ideal for 19" or 23" rack mount environments
- Manufactured from high strength aluminum for durability
- Cable management rings are large for easy routing of jumpers
- From $244.50

KW: lev-dps

Computer Workbench with Full Bottom Shelf

The Kendall Howard Performance Workbench is a high-quality, versatile computer workstation. The completely modular system allows you to design any computer workstation layout according to your specific requirements. The Computer Workbench is available in four different sizes, from 24" to 96" wide. These workstations are perfect for a small home/ office network, or a sophisticated corporate Local Area Network (LAN) computer center.

KW: kh-wb

- Completely modular. Upper shelves adjust in any increment
- Ships in a fully-enclosed crate to ensure no shipping damage
- 7-layer laminate coating on main surface for protection
- Knock-down design for easy transport
- Easy to follow directions - assembles in less than 20 minutes
- From $486.02

COMPUTER WORKBENCH SPECS - ALL SIZES

Black Box Fiber Optic Wall Mount Cabinet

Featuring full front access to pigtails and connectors, this cabinet helps conserve wall space, and is ideal for adding fiber workgroups.

KW: fiber-wm

- These super flexible cabinets come unloaded so you can add snap-in adapter panels
- Low-profile cabinets conserve wall space and can be mounted almost anywhere
- Easy to use Fiber Optic Adapter Panels snap in to place for mix and matching connector types

Rackmount Shelves and Drawers

For the best in computer shelf additions, CableOrganizer offers a range of computer shelves to accommodate your space and specific set up. Durable rack shelves and additional accessories help organize your peripherals and computer to help you maximize your space. Our rack shelves and computer cabinets are versatile and come in a range of styles.

KW: shelves-drawers

- Single and double-sided shelves
- Sliding and swiveling rack shelves
- Keyboard shelves (tilting and non-tilting)
- Mouse and monitor shelves
- Rackmount drawers
- Security lockboxes
- Wide variety of both solid and vented styles
- Available from leading manufacturers such as:
  - Bud Industries
  - Chatsworth
  - Cooper B-Line
  - Great Lakes
  - Kendall Howard
  - Middle Atlantic
  - Quest

Horizontal Cable Managers for Racks and Cabinets

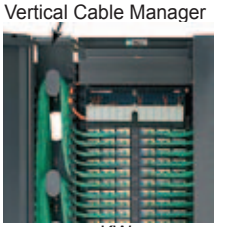
KW: hor-rack

Route and organize the patch cords in your server rack or cabinet with CableOrganizer's selection of horizontal cable managers from Black Box, Chatsworth, Cooper B-Line, Kendall Howard, Middle Atlantic, Neat Patch and PANDUIT.

- Styles to choose from:
  - Cover frames
  - Front and rear cable managers
  - Open frame wire management
  - Rack mount troughs

Vertical Cable Managers for Racks and Enclosures

Vertical Cable Manager



KW: ver-man

Keep rack mounted network equipment and cables neat and well organized with CableOrganizer's wide variety of vertical cable managers from Hoffman, Middle Atlantic, Neat Patch and PANDUIT.

- Effectively manage all of the patch cords and cables in your server rack without the need for horizontal cable management
- Maintain a safe cable bend radius for optimal data transmission
- Keep wires organized for easy identification and maintenance

Kendall Howard VCR/DVR Security Lock Box

KW: kh-vcr

- Provides maximum protection to your home security VCR & DVR equipment
- (2) Fan cutouts: (1) on top and (1) on the back, so you can circulate air through the top if the box is mounted to a wall
- Vented front and rear panels keep equipment cool
- Price $139.99

Middle Atlantic Horizontal Lacer Bars

KW: ma-lb

- Alleviates cable strain when running patch cords from one side of a server rack to the other
- Well-located cable tie points for easy cable fastening
- Provides extra support for rear equipment
- Helps relieve strain at cable connection points
- Many styles and configurations to suit just about any 19" enclosure (23" lacing bars also available)
- Call for project quote

Middle Atlantic Vertical Lacer Strips

KW: ma-ls

- Secure bundled cables within any rack or enclosure
- Also compatible with PD Slim and PDT Series power strips
- Simply slide the cable strap over the numerous tabs to secure the bundle
- Can be cut to a smaller size to fit your application

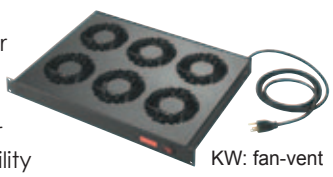
Middle Atlantic LT-1R Rackmount Light

KW: ma-light

Middle Atlantic's LT-1R series rackmount light allows you to easily view your electronic components from both the front and rear. The retractable light shelf requires only one rack space, and features a dimmable LED bar that illuminates automatically when opened.

- Has a mounted dimmer knob
- Constructed of 18-gauge steel
- Two rear USB-style output ports for optional connection of gooseneck worklights
- Weight capacity: 20 lbs
- Price $103.87

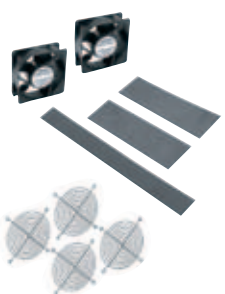
Hoffman Ventilation Fans



KW: fan-vent

- Standard 19" mounting for convenience and use in many different cabinets
- Trays available with either (3) or (6) 4" fans for versatility
- Each 4" fan is 102 CFM for maximum airflow
- 6' (1.83m) power cord with NEMA 5-15P plug compatible with standard 115 VAC outlets
- Price $148.88

Middle Atlantic Fan Kits



KW: ma-fankit

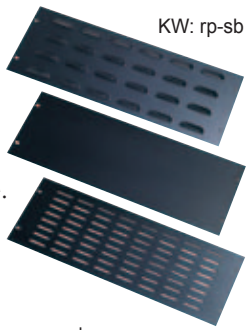
- Keeps computer equipment and cables cool in enclosed spaces
- Complete kit includes two 4 ½" fans, four fan guards and vent blockers
- Fan kits are available for 17", 22" and 26" deep DWR Cabinets
- Ideal for maintaining a cool environment for rack equipment
- Price $104.94

Kendall Howard Rack Screws and Cage Nuts

KW: kh-screws

Packed in a reusable tin, these screws and nuts are made of forged steel for durability. Both are dependable for keeping your racks securely together.
From $9.95

Rack Panels, Spacer Blanks

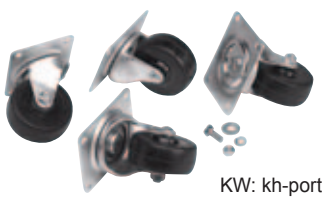


KW: rp-sb

Create neat, well-ventilated and professional-looking server racks by covering empty rack spaces with vent panels and spacer blanks from Cooper B-Line, Middle Atlantic, Kendall Howard and more.

- Hide ugly gaps between equipment in server racks and enclosures
- Close off unused rack spaces to present a clean, finished look
- Add strength to the rack frame
- Allow for better airflow control and heat dissipation
- Choose from solid or vented styles

Kendall Howard Portable Rack Caster Kit

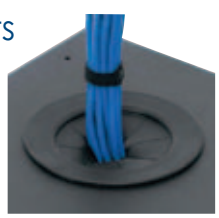


KW: kh-port

Our medium-duty rack caster kit comes with four medium-duty casters, and plus the hardware necessary for mounting them to any Kendall Howard Portable Rack System. Casters come with poly wheels to ensure they do not leave marks on tiled or other hard surfaces. Each caster will support 200 lbs (evenly distributed), giving you a total caster weight capacity of 800 lbs per rack.

- Casters support 200 lbs each
- Polyurethane wheels do not leave marks on tiled or hard surfaces
- Kit includes four medium-duty casters and hardware
- From $51.96

Middle Atlantic Grommets



KW: ma-grom

Middle Atlantic grommets are a great way to have cable protection around knockouts, whether you need it for specific size, stand-alone or ganged applications. We offer Middle Atlantic's 30' rolls of flexible black grommet material, good for any size knockout. If you need a standalone or ganging grommet, our Middle Atlantic ganging grommet rings are an inexpensive way to protect your cables from chafing in any trade size 4" electrical knockout.

- Available in 30' roll of grommet material, or 4" grommet ring
- Use around knockouts to protect cables
- From $32.74

Enhanced Series 19" Rack Mount Enclosure

KW: 19-rme

Enhanced Series enclosures provide feature-rich cabinets for housing telecommunication equipment, computer control room hardware, LAN equipment and other sensitive electronic equipment. Each cabinet includes: (2) 19" universal cage nut rails, adjustable levelers, a pack of mounting screws, removable vented top panel with (2) 4" horseshoe knockouts, plexiglas door with locking swing handle, perimeter vented steel rear door with locking swing handle, pair of solid lift-off side panels with lock and finger release latches, and a compatible power strip with circuit breaker and 15' cord. Many door, side, top and bottom options are also available. Available in advantage gray, nitro blue, or black color.

- Rails have infinite front to rear adjustability
- Frame formed five times for strength
- Strong 12-gauge, powder coated universal cage nut rails
- Tops can be removed without interfering with cable entry
- Grounding studs are standard on frames
- Provisions for power outlets in all four corners
- UL listed

Wall Mount Swing Open Rack

KW: gl-swing

The SR Wall Mount Swing Rack is a very popular economical solution for mounting patch panels and switches. Available in 3 heights and with a weight capacity of 100 lbs, the swing frame provides easy access to the back of equipment.

- 19" EIA 310-D compliant with #12-24 threaded holes and hardware
- "Stay Open" hinge pins
- Provisions for optional cable management cinch straps
- 180° positive stop
- Minimal assembly required
- Listed to UL60950-1
- From $193.81

Part #	Size	RMU	Weight Cap.
GL24SR	23.75" H x 20.75" W x 18" D	12	100 lbs
GL36SR	36" H X 20.75" W x 18" D	19	150 lbs
GL48SR	48.76" H X 20.75" W x 18" D	26	150 lbs

15" Wall Mount

KW: gl-rack

The GL15WM is a 15" high wall mount with a pair of tapped, #10-32, 7 RMU rails. This unique enclosure is designed to be ideal for housing smaller intercom, paging, and security systems. The plexiglas option allows for visual verification of equipment, and one-person installation makes the 15WM a convenient solution for any customer, from the owner of a local retail store, to a general or electrical contractor, to the office manager at a school.

- Reversible main body
- Conduit knock-outs of various sizes to accommodate the proper amount of cable
- "Extra" space for mounting a PDU
- Tamper resistant screws and a required security bit create added protection
- Solid door available
- UL Listed
- From $245.11

GL15WM

Size	RMU	Weight Cap.
15.38" H x 22.25" W x 17.66" D	7	100 lbs

Wall Mount Enclosures - WM Series

KW: gl-wm

The WM Wall-Mount/ Swing-Out cabinets provide 19" rack mounting in a distribution enclosure. A simple snap latch located inside the cabinet opens the 18" deep center swing section for front and rear access. There are also 1", 2", and 3" knockouts located on the top, bottom and rear for easy wiring, installation and maintenance. Front and rear sections lock independently for added security.

- Vented side walls
- (2) Pairs of adjustable rails
- Plexiglas front door (except where noted)
- Left or right-hand swing out
- Listed to UL60950-1
- From $420.62

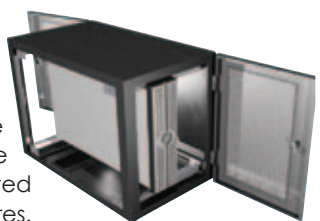
7217WS

Fan assembly with fan guards and two 75 CFM fans, for use with WM Series Wall Mounts

Wall Mount Enclosures – WE Series



KW: gl24we

Servers and networking equipment are becoming a necessary part of small businesses, offices, and home environments; however, these areas usually aren't constructed to include complete enclosures. The GL24WE can accommodate the necessary amount of equipment while being placed in a limited space. The wall mount allows servers to be mounted sideways, greatly reducing the space required to mount equipment.

- Mesh side doors for optimal airflow
- Optional exhaust fan mounting
- Maximum rail spacing 29", front to rear
- Conduit knockouts on the top, bottom, and rear of enclosure for proper cabling, UL Listed
- Price $754.80

GL24WE

Size	RMU	Weight Cap.
24" H x 36.1" W x 20.5" D	10	350 lbs

Four Post Racks

KW: four-rack

With a strong design and solid (but easy to assemble) construction, Great Lakes racks can hold up to 2000 lbs. The open frame structure allows natural airflow to circulate throughout the equipment, while also providing easy access to equipment that is constantly in use.

- 84"H x 20.6"W, rail depth ranges from 24" to 36"
- 45 RMU
- 1000 lbs weight capacity; 1250 lbs when networked
- 19" EIA 310-D compliant
- Constructed of extruded aluminum and 12-gauge cold rolled steel
- UL listed
- Ships in (3) boxes
- From $38.15

Part #	Rail Depth	Mount

Fluke DTX Digital Cable Analyzers™ and Certification Testers

They significantly reduce the time it takes to certify your network when compared with competitors' analyzers. Fluke DTX testers will test and certify your CAT 6 cable in 12 seconds. Most other testers take over 30 seconds to perform the same test. This translates to 85 extra certifications before lunch! Not only do these analyzers test for problems, they also suggest potential actions to correct the problem, saving even more troubleshooting time.

KW: fluke-dig

- Level IV Accuracy
- Bright backlit display for better viewing
- Allows you to communicate over both copper and fiber
- DTX-1200 Main and Smart Remote
- LinkWare PC Software
- (2) Cat 6/Class E Permanent Link Adapters
- (2) Cat 6/Class E Channel Adapters
- (2) Headsets for Talk
- (2) AC Chargers
- Carrying Case
- USB Interface Cable (Mini-B)
- From $7,884.40

The DTX 1200 has a maximum testing bandwidth of 350 MHz, allowing all tests to be done in just 12 seconds in full compliance with industry standards.

The DTX 1800 has a maximum testing bandwidth of 900 MHz, which will allow you to test video distribution, Class F, CATV and 10 Gigabit Ethernet cables.

Greenlee NETcat® Pro NC-500 Structured Wiring Troubleshooter

Simple one touch testing verifies network cabling and service. The NETcat® Pro is a digital tool for fast and accurate testing of cables, wiring and network services.

KW: netcatpro

- Backlit easy-touch display with screen view adjustment is simple to use
- Excellent for testing shielded twisted pair (STP), unshielded twisted pair (UTP), and coaxial cables
- Identification of active network devices (PC or Hub) on 10/100 Base-T networks
- Price $293.22

WireMaster XR-5 Cable Tester

- Tests 5 types of cables: RJ-11, RJ-45, BNC, 1394, and USB
- Simple one-button test
- Ergonomic, portable handheld design
- Tests installed wiring or patch cables
- Remote attaches to main unit
- 600' test distance (RJ-45 / RJ-11, BNC)
- LEDs indicate connections and faults
- Beeper provides audible annunciation of test results
- Price $119.00

KW: wm-xr5

LAN Cable Tester

- Test Features:
  - Cable continuity
  - Open, short, and miswire
  - Ground wire test
- Remote module allows testing at distances of up to 1000'
- Auto/Manual Scan function
- Illumination light for dark area visibility
- Price $81.85

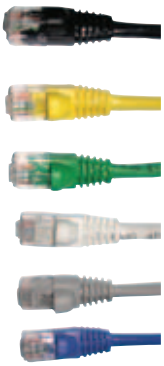
KW: it-lantest

Fluke Cable IQ™ Qualification Tester and Intellitone Probes

- Cable types supported: UTP, STP, FTP, SSTP, RG6, RG59, audio and security
- Qualification Autotests: 1000BASE-T, 100BASE-TX, 10BASE-T, VoIP, 1394b S100, TELCO, Wiremap only, and Coax
- Wiremap: detects single wire faults and split pairs, and supports MultiMap mode with up to (7) remote office identifiers.
- From $1,542.50

KW: fluke-iq

Cat 5E & Cat 6 Patch Cables



Our enhanced Category 5 UTP patch cords feature a snagless molded strain-relief boot design. They exceed specified performance as stated in TIA/EIA 568A for connecting hardware, and are manufactured with 50 micron gold plated modular connectors.

Category 6 patch cables feature molded snagless boots. Wired to specification TIA-568 B, 350MHz, CATEGORY 6, they're manufactured with 50 micron gold flash plated modular RJ-45 connectors. Offered in (7) different colors for easy port or link identification. Lifetime warranty

KW: patch56

- From $1.20

PANDUIT NetKey® Cat6 Patch Cords

- Tangle-free latch will prevent snags and give you a simple release to save time during frequent moves, changes and rearrangements
- Available in multiple sizes and colors for quick field identification and ease of installation
- From $8.75

KW: pn-cat6

Bulk Network Cables

- 4-pair (UTP) unshielded twisted pair cable
- 24 AWG solid bare copper conductor (CAT 5e) and 23 AWG solid bare copper conductor (CAT 6) for superior conductivity
- Verified compliant with EIA/TIA standards by UL and ETL; UL/CSA listed
- From $10.00 / 50FT

KW: bulk-cab

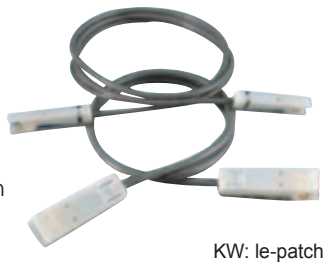
Neat-Patch CAT6 Smart Packs

The 2' cable is a perfect fit for a 19" equipment rack, leaving just enough excess to form a single coil. The overall result is a neat, organized network.

KW: np-cat6

- CAT6 560 MHz
- Fluke tested, ETL verified
- RoHS compliant, UL E151955-A certified
- Price $62.30

Leviton GigaMax™ Cat 5e 110-Style Patch Cords



Leviton's GigaMax Category 5e 110-style patch cords are used to cross-connect between either 110 blocks or 110 blocks and patch panels, while meeting or exceeding TIA/EIA –568.B category 5e channel performance and class E requirements of ISO/IEC 11801-B.
They can also be purchased for both T568A and T568B wiring configurations.

KW: le-patch

- Available in 110 to 110 Cat 5e configuration for block cross-connects, and in 110 to both T568A and T568B wiring configurations to meet your wiring needs
- Cross-connect between 110 blocks or between 110 blocks and patch panels
- Strain relief boot on RJ45 cords protect the cords for long lasting installations
- Meets and exceeds all Cat 5e requirements for channel-level performance
- From $9.33

3GHz Digital Coaxial Cable RG59/U and RG6/U

- RG59/U
  - 20 AWG solid bare copper center conductor
  - Gas-injected foam dielectric surrounds the copper center conductor
- RG6/U
  - Foam PE dielectric surrounds the copper center conductor
  - From $105.52

KW: dc-cable

USB 5-in-1 QuickConnect™ Cable

- Available in any of the following configurations:
  - (2) Cables; 18" and 36" long
  - (1) 6' cable
  - (1) 10' cable
  - (1) 15' cable
- 24-karat quality, foil and braid shielded cable to reduce EMI/RFI interference
- Designed for USB high speed v2.0 transmission
- (5) Detachable 30 mil. gold plated connectors (USB A Male, USB B Male, USB A Female, Mini USB A Male, Mini USB B Male) included
- From $16.99

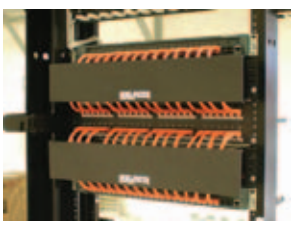
KW: usb-5n1

Neat Patch

KW: np-page

Neat-Patch has developed and patented a design on several cable management products. This product is a patch-cable storage solution unlike anything the network cabling world has never known. Its unique design enables the customer to store their excess patch cable into a neat and tidy compartment. Instead of wadding up the slack and stuffing it into a finger-duct, the end-user simply coils the excess and slides it into place. Neat-Patch supplies a patch cable storage/management system for networks that has never been offered – until now.

- Neat-Patch promotes bend radius compliance in patch cable management
- Neat-Patch provides more patch cable storage than its competitors' products
- Neat-Patch is a unique one-piece plastic molded design that is non-conductive, and therefore cannot be associated with electrical issues such as surges and grounding
- This is a protection factor that is attractive to network engineers as well as architects. Current wire managers are plastic finger duct riveted to metal or metal D-rings
- From $59.34



Application of Neat-Patch

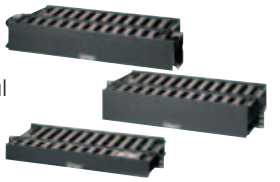
Middle Atlantic RLA Series Aluminum Two-Post Open Frame Rack

KW: ma-rla

If you're looking for versatility and durability at a great price, you can't go wrong with RLA Series aluminum two-post racks by Middle Atlantic.

- UL listed in the USA and Canada
- EIA/TIA compliant
- Heavy Duty 3⁄16" thick extruded aluminum uprights are 12-24 threaded front and rear
- Heavy Duty 1⁄4" thick aluminum top angle provides extra stability for cable ladders
- Racks ship flat and are easy to assemble, due to their simple and convenient "knockdown" design
- From $142.48

PANDUIT PatchLink™ Horizontal Cable Manager



KW: pan-patch

The PANDUIT PatchLink™ Horizontal Cable Manager is a perfect tool to manage your patch cables. Designed by a top brand to meet and exceed all industry standards, this product is sure to get your cables under control and keep that racking unit nice and neat.

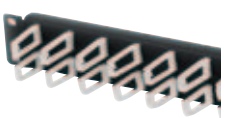
- Lightweight plastic construction provides durability and easy installation
- Patented dual-hinged cover allows cable access without removing cover
- From $40.47

PANDUIT NetKey® Flush Mount Modular Patch Panels

KW: pan-netkey

- Rear-mounted faceplates allow the modules to be flush with the front of the patch panel
- The patch panel will work with any Category 5E, Category 6 UTP, fiber or coax keystone modules that snap into the panel
- RoHS compliant
- From $36.00

Kendall Howard Managed Cable Minder



KW: kh-mcm

- 14-gauge steel construction
- (24) Semi-hard molded plastic clips rotate independently
- Each clip can be locked, preventing cables from falling out
- Perfectly organizes Cat 5 and Cat 6 patch panels
- Routes cables from routers, switches, and any other components that require front-mounted cables
- Price $48.00

PANDUIT® NetRunner™ Vertical Cable Manager

KW: pan-netrun

- Enhances air flow and prevents thermal damage to appliances
- Has abundant wide-spaced finger openings, which often allow more than 24 CAT6 patch cords to be routed per space
- Controls bend radius to protect cables from hidden crushes, kinks and snags
- Finger openings simplify the routing of cat6 cables
- From $156.93

Signamax™ Stackable Managed Gigabit Ethernet Switch + 2-SFP Dual Media Ports

KW: sig-stack

- Has Gigabit 1000TX capability on all (24) ports so you can upgrade your communications to Gigabit workstations or servers and still communicate with your legacy 10/100 workgroups
- Equipped with VSM capability, which allows you to link up to (16) switches in multiple remote locations
- Works with all SNMP software packages for the ability to add on to an existing SNMP network with reliable integrated performance
- Price $437.11

4-Port Desktop KVM Switch (PS/2)

KW: 4p-kvm

- Controls (4) computers (combination of PS/2, Mac, Sun, & USB) from a single keyboard, mouse, and monitor
- Compact desktop design: 7.875" W x 3.125" D x 1" H
- Works with all operating systems and supports VGA, SVGA, or Multisync monitor - PS2, USB, and Sun compatible (with appropriate adapters)
- Price $58.66

Black Box Mini Cat 5 VGA Receiver

KW: bb-cat5

- Allows you to set up video monitors up to 500' from your PC or video source
- Eliminates the need to use bulky, expensive, and difficult to terminate VGA cables
- Used for receiver connections with Mini Cat5 VGA Extenders
- Price $153.31

Signamax 10/100/1000 Gigabit Switching Media Converter

KW: sig-con

- Built-in twisted pair 10/100/1000 switch
- Cost effective way to establish a fiber optic cabling infrastructure within legacy and new networks
- Fiber connection operates at 1000 Mbps
- Can be used as a stand alone wall device or placed in a 19" chassis
- From $513.00

NetDirector™ 1U Rackmount Console

(console only, no KVM switch)

The Tripp Lite NetDirector 1U Rackmount Console contains an integrated 17" LCD panel, 88-key full keyboard and a touchpad in a 1U rack mount housing. The console is designed for use with a server or a KVM switch with PS/2 console connectors.

KW: net-1u

- Space savings with 1U 19" rack-mount drawer design
- Features 17" LCD TFT active-matrix color panel
- Supports resolutions of up to 1024x768 @ 65MHz
- Works with any KVM Switch with PS/2 console port
- Sleep mode when the monitor cover is closed
- Installs quickly and easily
- 88-key full keyboard
- Touchpad
- Available in black
- Dimensions: 26.5" D x 19" W x 1.7" H
- Weight: 27 lbs
- Connections: HD 15 Female (Connector A) and Mini DIN-6 Female (Connector B)
- Power Input: 120 –240 Volts AC
- PC/Server: VGA, PS/2
- Includes:
  - TL-B021-000-17 1U rackmount console
  - KVM Cable Kit (HD15M TO HD15M + 2 PS2 Male)
  - AC power cord
  - User manual
- 1-year warranty
- Price $1,270.10

Signamax™ Connectivity Systems Hardened Ethernet PoE Switch

KW: sig-poe

Signamax Connectivity Systems' 065-74xxP Series 8-Port 10/100 Unmanaged Hardened Industrial Power over Ethernet (PoE) DIN-rail Mount Switches were developed to operate in harsh environments that require rugged equipment. To ensure high reliability, these switches are tested for functional operation in extreme temperatures.

- Provides reliable power for up to (4) PoE Powered Devices (PDs) in harsh industrial and municipal environments
- From $661.50

PANDUIT® NetKey® CAT 5e & CAT 6 Modules

KW: pan-jack

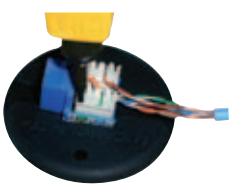
PANDUIT® NetKey® Cat 5e & Cat 6 Modules are made to perform flawlessly in today's demanding networking field. Confidence that each jack module will deliver specified performance is not an easy-to-find feature on any brand, yet PANDUIT® continues to be a top brand name based solely on the performance of their products.

- Made to snap in for fast moves, adds, and changes
- Contacts are plated with 50 microns of gold for superior performance
- Utilizes industry standard termination style for compatibility
- Works with PANDUIT modular faceplates and patch panels
- 100% tested for top performance delivery
- Retention cap provides additional strain relief
- Color-coded labels for T568A and T568B wiring schemes included for your convenience
- RoHS compliant
- Available in (10) designer colors for easy color-coding or décor-matching:
  - Off white, electric ivory, international gray, white, black, orange, red, blue, green, yellow
- From $5.12

APPLICATIONS INCLUDE:

- Ethernet 10BASE-T, 100BASE-T (Fast Ethernet), and 1000BASE-T (Gigabit Ethernet)
- 155 Mb/s ATM, 622 Mb/s ATM, 1.2 Gb/s ATM
- Token Ring 4/16
- Voice over Internet Protocol (VoIP)

EZ Grip Puck



KW: ez-puck

The EZ-Grip Puck is made from a special rubberized material for flexibility and durability. This simple, inexpensive tool saves so much time and energy when working with wire and cable! The puck fits in the palm of the hand and improves your grip 100-fold when pulling or pushing cable. You can even use the puck as a stable base for punching down wire in keystone jacks.

- Improves grip dramatically when pulling fish tape through conduit
- Provides a stable base for terminating wire in a keystone jack
- Price $4.98

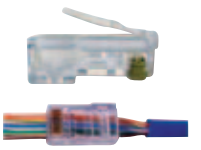
SuperLooper™ Loopback Jack and Plug

KW: sl-loop

The Loopback Jack and Plug will check cables for broken or shorted wires, and also tests wall jack to network switch connections. Use the Loopback Jack & Plug on a network switch or hub to check RX/TX pairs of cables.

- Molded hybrid casing provides both male and female jacks
- Small, convenient, and economical for network technicians
- Color-coded for quick recognition
- Price $5.43

Network Hardware: EZ RJ45 and RJ11-12 Plug Connectors



KW: ez-con

- RJ45 Connectors work with CAT3, CAT5, CAT5e, and CAT6 cable
- Simplify terminations by inserting wires through the connector and out the front, so you can double-check your T-568 sequence
- RJ11/12 works on solid or stranded wire for use in telephone and security installations
- From $9.95

Greenlee Clip-On Twisted Pair Kit

KW:gl-clip

- Rugged Cordura® pouch is built to last, lowering replacement costs
- Heavy-duty metal clip snaps over the installer's belt, so that the kit can be removed without removing the belt
- Kit includes: electrician's scissors, punchdown tool with 110 blade, 66-style punchdown blade, Kwik Stripper twisted pair stripper, flashlight, carry case with heavy duty metal belt clip
- Price $126.74

QuickPort® Category 5e Gigamax™ Snap-in Connector (Jack)

KW: qp-snap

- The connector is laid out in a 180° configuration such that the punch field is in the back, allowing for rear termination
- Leviton's GigaMax5e connector is designed to be used with any QuickPort® housing in surface mount, flush mount, or modular furniture outlets and field configurable panels

12 Port Mini-Vertical Patch Panel

With patch panels, your phone and automation wiring systems can be easily organized no matter how complex the application. By plugging all your cables into this hub, you avoid the confusion of messy and untraceable wires. The panels can also be used for Ethernet cable configurations.

KW: 12p-vert

With its compact design, this vertical 12-Port Patch Panel is ideal for smaller applications. For added efficiency, all port identification and writable areas are silk-screened onto the panel for easy administration.

Connectorized Demarc Block

- Includes a mounting bracket and a snap-on orange cover with a designation strip
- The pretested 25-pair female Amphenol connector is mounted on the right side, and speeds the connection of customer premise equipment to the network interface
- From $37.32

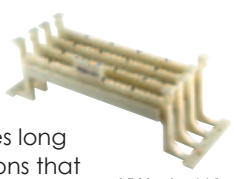
KW: dem-block

Hinged Cover for M Blocks and Demarc Blocks

- Snaps into the right side fanning strip of 25-pair and 50-pair M blocks to protect wiring from dust, dirt and accidental shorting
- The hinged cover allows wires to be routed from both the left or right sides
- A designation strip is also included inside the cover for the recording of pair assignments

KW: cov-mblock

Siemon 110 Block Wiring, 66 Phone Connections



- Durable, convenient design ensures long lasting and dependable connections that require less maintenance
- Patented design has openings between rows to allow easy routing and organization of cables
- Available in 100 and 300 pair blocks for a wide range of applications
- From $7.75

KW: sie-110

Leviton® Shielded Connectivity Product Line

Leviton's shielded connectivity product line includes a 1RU/24-port patch panel with cable management bar, as well as CAT5E and CAT6 shielded connectors and shielded patch cords. These shielded products protect critical data from EMI, which is known to degrade, disrupt, or even interrupt connectivity. Electromechanical devices, such as computers, electric motors, fluorescent lighting and cell phones cause this type of interference. These shielded Leviton solutions are ideal wherever interference can occur, and are especially useful in healthcare and manufacturing environments.

KW: le-shield

Standards Compliance

- TIA/EIA 568-B for CAT5E and CAT6
- FCC Part 68
- IEC 60603-7
- ETL with third party verification

CAT5e and CAT6 Shielded Connectors Features

- Tool-less design
- Encased in a die-cast housing whose hinged design allows for termination without a 110 punch down tool
- Opens for easy access to IDC

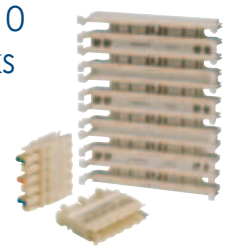
24 Port Shielded Patch Panel Features

- Includes cable management bar, grounding wire, and cable ties
- Panel features nickel-plating for improved grounding
- Accepts QuickPort® Shutter Kit for labeling options
- Available in Black

CAT5e and CAT6 Shielded Patch Cords Features

- Stranded conductor with an 8-position plug at each end
- Cords are available in 3', 5', 10', 15', and 20' lengths

PANDUIT® Pan-Punch™ 110 Cat5e Connecting Blocks and Bases



- Pan Punch 110 connecting blocks have a test access port for each contact to allow testing with the wires installed
- Each base has TIP color coded wire strips for ease of installation and maintenance
- Bases exceed all Cat5e connector requirements as defined by EIA/TIA
- From $14.20

KW: pan-block

When it comes to CableOrganizer's fiber optic line, cables, connectors and cable management are just the beginning. From fan-out kits and testers to fiber enclosures and hardened media converters, we offer the most up-to-date fiber optic components from top manufacturers like Corning, Fluke, Hoffman, Leviton, PANDUIT®, and Signamax.

For additional fiber optic products, visit us at:
http://cableorganizer.com/fiber-optic-jumpers/
or call us toll-free 24/7 at 1-866-222-0030

To simplify shopping online at http://cableorganizer.com, just type any product's KW (keyword) code into our Search, and you'll receive instant access to full product details, specs, photos and pricing.

Wall Mount Fiber Patch Panel Enclosures

KW: fiber-pp

CableOrganizer offers a variety of wall mount and rack mount fiber optic patch and splice enclosures. These data cabinets are available pre-loaded with any connector interface required.

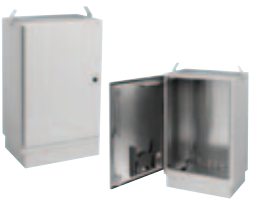
- Pre-loaded patch panels
- Can be used for 19" or 23" racks
- Bend radius controllers are mounted so as to maintain optimal bend radius for cable slack, whether patching or splicing

Leviton Opt-X Ultra™ High-Density Fiber Rack Enclosures

KW: lev-optx

- Constructed of tinted polycarbonate and 16-gauge steel for a beautiful high tech appearance with exceptional durability
- Front and rear doors, as well as chassis, are transparent and removable, to make wiring easily accessible for installations, changes, or maintenance
- Equipped with easy-glide sliding tray for quick access to high-density fiber terminations and splicing on the front and back
- Bend radius guides are integrated into the enclosure design to prevent any damage of fiber
- Available in 1RU, 2RU and 4RU models with a 17" depth

Hoffman FTTX Fiber Optic Cabinets

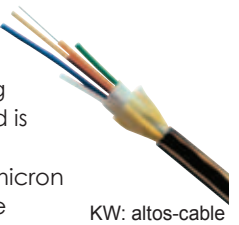


KW: fiber-cab

Hoffman FTTX enclosures are designed to protect and manage fiber optic cable for broadband delivery in outdoor applications. Constructed with welded aluminum and coated with polyester powder paint, these enclosures provide long-lasting protection in extreme outdoor applications.

- Manufactured from 0.125" thick aluminum
- Heavy gauge continuous hinge
- Finish is outdoor-grade polyester powder paint
- NEMA/EEMAC Type 3, 3R, 4, 4X, 12
- From $1,435.50

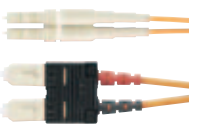
ALTOS® All-Dielectric Gel-Free Cables from Corning



KW: altos-cable

- Meets industry standards, including ICEA-640 and Telcordia GR-20, and is listed with RUS 1755.900 (PE 90)
- Available in multimode (62.5/125 micron and 50/125 micron) or single-mode
- Construction consists of a maximum of (12) fibers per buffer tube
- Bulk prices available

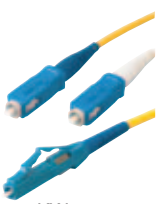
PANDUIT® Fiber Optic Patch Cords



KW: pan-fiber

- Single-mode end faces are polished to ensure high quality
- Test data supplied with every patch cord to establish a reference for performance
- 100% tested for insertion loss to assure high performance
- Quality control ID label provides lifetime traceability
- RoHS compliance assures reliability
- From $14.62

Corning UniCam® Pretium™ Singlemode Connectors LC, SC, ST



KW: corn-con

- Superior optical performance with 45 second install time
- When using UniCam Pretium tool kit, connector pairs are 100% guaranteed to have no more than 0.5 dB insertion loss
- Also available in multimode connectors
- From $18.60

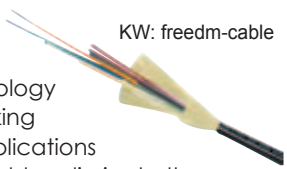
Signamax™ 10/100 to 100FX DIN-Rail Mount Hardened Converter

KW: sig-baset

Signamax 065-1800 series 10/100 to 100BaseFX has been developed to operate in harsh industrial environments that require durable and rugged equipment that will function properly in severe temperature extremes.

- This device will change signals on a copper cable into signals that can run on fiber, allowing you to introduce fiber technology without making other changes
- An economical solution for your outdoor ethernet needs, where temperature and humidity play a role in the integrity of your signal

Corning FREEDM® One Riser & Plenum Cables



KW: freedm-cable

- Dry cables with no-gel technology ensure long term water-blocking performance for outdoor applications
- FREEDM® One plenum/riser cables eliminate the need for building entrance transition splices or rigid metallic conduit, reducing installation time and cost
- Also available: ribbon riser cables
- Bulk pricing available

Fiber Optic Consumable Kits & Fan Out Kits - Leviton

KW: lev-kit

- Fiber Optic Fan Out Kits protect bare fiber and prepare loose tube cable for direct termination to industry standard connectors
- Consumables kits contain polyester wipes, alcohol pads, music wire, and lapping film
- From $21.00

Fast-Drop™ Fiber Bend Radius Control Modules

KW: dt-fiber

- Can be used for fiber spool mounting
- Made of UL 94V-0 Flame Retardant Polycarbonate
- NEBS & RoHS Compliant
- Shock, vibration, and impact resistant
- Snaps easily in place
- Mounts horizontally or vertically
- Hook and loop strap included to secure cables

TKT-UNICAM® Tool Kit

TKT-UNICAM® is the Basic Installation Kit for single fiber and 2-fiber UniCam Connectors. It terminates single fiber ST® compatible, SC, LC, and FC, as well as 2-Fiber UniCam MT-RJ connectors. It includes FBC-001 Score and Snap cleaver, as well as components for single-fiber Continuity Test (CTS) applications.

- Basic kit for single fiber and 2-fiber UniCam Connectors
- Terminates ST, SC, LC, FC, and 2-Fiber MT-RJ connectors
- Includes all of the necessary tools: crimper, cleaver, strippers, scissors and more
- Everything stores in the included standard tool bag

Kit includes:

- (1) UniCam Connector Installation Critical Steps Card
- (1) UniCam Connector Installation Recommended Procedures Document
- (1) UniCam Connector Installation Video
- (1) UniCam Connector Strip Length Gauge Card
- (1) UniCam Connector Elite™ Tool Kit Installation Tool
- (1) UniCam Connector Crimp Tool
- (1) Score and Snap Fiber Cleaver
- (1) Fiber Stripper, (1) No-Nik® Stripper, (1) Jacket Stripper
- (1) Electrician's Scissors
- (1) Number Marker, (1) Permanent Marker
- (1) Tweezers
- (6) Alcohol Wipes
- (1) Electrician's Tape, (1) Loctite 411 Adhesive
- (7) Black Adhesive Anvil Strips
- (1) MSDS, 411 Adhesive, (1) MSDS, Alcohol Wipes
- (1) UniCam Connector Standard Tool Bag

KW: tkt-kit

At CableOrganizer, we know that there's nothing like a great home theater experience, and that's why it's our goal to bring you the highest quality A/V cables, flat screen mounts, home theater racks and cable management from brands like Black Box, Chief, Middle Atlantic, Monster Cable® and more. Get the sharpest pictures and clearest sounds possible with our selection of coax, RGBS video, HDMI, component video, speaker and Toslink cables.

Middle Atlantic Home Theater Rack SRSR series - 19" Rotating Sliding Rail System

This home theater rack features a 90° swing-out design that allows components to be accessed from the rear. The rotating equipment bay locks in place at 0°, 60°, and 90° positions, making installation and servicing quick and trouble-free.

KW: ma-srsr

- Made in USA of 11-gauge cold rolled steel
- #10-32 EIA compliant threaded rack rails with marked rack space increments for speedy equipment mounting
- Pulls out and rotates 90° in either direction for easy access to equipment connections
- Removable rack frame allows in-shop integration and on-site installation of equipment, saving time in the field
- Locks in the extended position for simplified equipment integration
- Simplifies equipment installation in rack
- Shortens installation & service time
- Self-centering mounting base makes it simple to align system within rack opening
- Available in 19" and 23" useable depths
- Sizes ranges from 12 RMS to 30 RMS
- Rear cable support when used in conjunction with the rear rackrail provides effective cable management
- Call for project quote

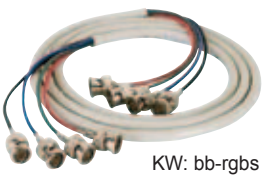
F-F Cable Assemblies, Satellite Cable, Video Cable

KW: ff-cable

Our precision F-F cable assemblies are designed for demanding RF video requirements. These cables improve video performance over standard RG-59 types. They feature weatherproof compression connectors and come in RG-6U and Quad-Shield RG6 cable choices in various lengths and two colors.

- Nickel-plated F-compression connectors, 18 AWG copper clad steel center conductor
- Double aluminum foil shield + tinned copper braid
- Made to order

Black Box RGBS Video Cable



KW: bb-rgbs

- Allows you to move your monitor anywhere, from 5' to 50' from your CPU
- Surrounded by a tinned copper braid shield to protect against EMI/RFI
- Color-coded individual cables for correct and easy installation
- Guaranteed for life
- From $50.07

DVI Cables

KW: dvi-cab

- Dual-link digital connection supports display resolutions up to 2048 x 1536 (QXGA)
- Ideal for all DVI connections including HDTV, set-top boxes, DVD players, and AV receivers
- DVI-Digital, single and dual link cables available
- Great for high definition digital video connections
- From $8.10

Black Box HDMI Splitters

KW: bb-hdmi

- Replicate HDMI video and audio output for display on HDTV screens, HD LCD, plasma, or other high-definition screens
- Buffers output and drive as far as 40', so uncompressed HD video and multi-channel audio are reproduced without any loss
- 1.65 Gbps bandwidth provides clear, error-free amplification of video and sound
- From $230.49

Version 1.4 Certified HDMI Cables

KW: atc-hdmi

Built to support 3D formats and 8 channel audio, these HDMI cables are certified to the latest HDMI 1.4 standard, and are ready to take on the next step in digital entertainment.

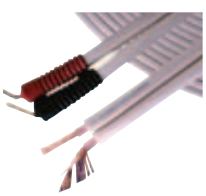
- Upgraded HDMI technology supports common 3D formats and resolutions for a better home theater experience
- Adds a data channel to the HDMI cable and enables high speed bi-directional communication for clearer video and audio
- From $9.54

HDMI Cables

KW: hdmi-cab

- High-bandwidth digital connection offers superior digital video and multi-channel audio in a single cable, reducing the maze and clutter of home theater connections
- Connect HDMI-equipped devices, including DVD players, set-top boxes, A/V receivers and HDTV
- Supports multiple audio formats

Monster Cable® Speaker Cable



KW: monster-cab

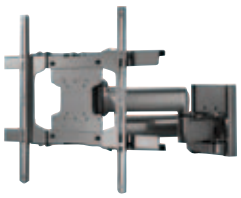
- Monster's Time Correct® windings for more natural music reproduction
- Magnetic Flux Tube® construction for greater dynamic range and improved bass response
- LPE dielectric to reduce signal loss
- Available in clear or navajo white
- From $1.45 a foot

Monster Cable® Interlink® LightSpeed™ Fiber Optic Toslink Cable

KW: inter-cab

- Tuned spectral attenuation for optimum signal admittance and low loss
- The precise Monster Cable fiber optic connection delivers higher sonic performance than standard cables
- Price $54.65

CHIEF® iC® Swinging Arm Mounts



KW: chief-mount

CHIEF® iC® Swing Arm Wall Mounts increase your screen positioning possibilities. Designed to match today's modern look and able to mount up to a 50" screen, these monitor mounts are sure to make your home theater set up or office the envy of everyone. The swinging arms possess a full range of motion that provides perfect positioning for any monitor or television application.

- Allows you to tilt and/or swivel screens in any direction for a better view
- Swinging arm for position versatility
- Tightly hugs the wall for a sleek look when not extended
- Holds up to a 50" screen with full range of motion for your convenience
- (3) different sizes to fit your custom application
- All of the hardware is included for a fast set up
- Provides cable management for a clean look
- Requires easy assembly and mounting
- From $99.99

SMALL TILT & SWIVEL W/ EXTENSION ARM

Screen Size	Weight Capacity	Extension Reach
10" to 26"	40 lbs	3.06" to 16.34"

MEDIUM TILT & SWIVEL W/ EXTENSION ARM

Screen Size	Weight Capacity	Extension Reach
26" to 40"	75 lbs	3.9" to 20.9"

LARGE TILT & SWIVEL W/ EXTENSION ARM

Screen Size	Weight Capacity	Extension Reach
30" to 50"	125 lbs	3.8" to 21"

Monster Video® 1 Component Video Cable

KW: monster-comp

Improved performance component video cable with high-density double shielding for maximum video performance from today's DVD players, satellite receivers, and TVs with component video connections.

- Low-loss component video cable for high quality picture
- Multi-stranded, all-copper construction for improved overall video performance
- 4-cut 24k gold RCA connectors for maximum conductivity

SURGE PROTECTION

Bring your electronics to life with CableOrganizer's line of power and data distribution products. From UPS surge protectors and desktop data connections to safety outlets and modular raised floor systems, we're here to help you get connected with power and data solutions from Altinex, APC, Belkin, Coleman Cable, Leviton, Power Squid, Tripp-Lite and more.

For additional power and data distribution products, visit us at:

PowerSquid® Home Theater Surge Protector

KW: squid-prot

The PowerSquid® Home Theater Surge Protector is one of the most sophisticated and effective power appliances around. The numerous added features offer supreme surge protection for your home theater, computer, or general electrical equipment. The enhanced reach, flexibility, and room for adapter plugs make the PowerSquid® easier to use than traditional strips. This premium edition comes equipped with a fail-safe circuit and alarm to provide superior protection in the event of a lightning strike or severe power surge. There are also high frequency capacitor filters for EMI/RFI noise reduction to improve performance. The shielded gas tube coaxial cable protection with gold plated connectors help to reduce signal loss and provide reliability.

- 3240 Joule rating
- Fail-safe circuit and audible alarm
- Extra long 8' grounded power cord
- Lifetime manufacturer's limited warranty
- $500,000 connected equipment warranty
- EMI/RFI noise filtration up to 58dB
- Swiveling flat-profile plug rotates 360°
- (2) Neon indicator plugs to illuminate outlet area
- Gold-plated coaxial connectors
- Excellent for home theater or computer use
- Patent #6486407
- Price $69.95

Home Theater, Ethernet & Audio Power Surge Suppressor - Tripp Lite

KW: eth-aud-tripp

Equipped with 8 or 10 outlets, child safety covers and an 8' or 10' cord with space-saving right angle plugs, these devices have diagnostic LEDs to warn the user of any problems.

- Built-in RJ11 jacks protect your modem, fax and phone from damage
- Space-saving right angle plugs and a 6' telephone cord included
- Diagnostic LEDs confirm suppressor "protection present" (green status) and "grounded" (red status)
- From $29.99

Kill A Watt™ PS - Electricity Usage Monitoring Power Strip

KW: kill-ps

- Advanced surge protection circuitry to keeps your delicate electronics and appliances safe from electrical spikes (8 outlets)
- Allows you to calculate your overall electrical costs and estimate by the day, week, month, or even an entire year
- Price $81.72

ISOBAR Surge Suppressors - Tripp Lite

KW: isobar-tripp

- Protects AC, telephone/modem, audio/video, rack mount, hospital and 230 Volt applications
- Includes isolated filter banks, sine wave tracking, phone-line surge suppression and fire-safe
- Up to 5700-Joule rating
- Up to (10) outlets
- From $79.05

APC® Smart-UPS 750VA LCD

KW: apc-smartups

- Maintenance-free battery provides up to 15.9 minutes of power at 50% load capacity, allowing you an adequate amount of time to save important documents and safely power down equipment during power outages
- Price $305.50

Monster Cable® Outlets To Go™ Mini Power Strips

KW: mini-strip

Monster Cable's® mini power strips are a compact and convenient way to power your devices. The dual-sided design includes wide spaced outlets to plug in large adapter plugs. Safely charge up to (4) devices at a time, as these mini power strips come equipped with a resettable circuit breaker to prevent overloads.

- Compact FlatProfile® is ideal for business travelers
- Dual-side design maximizes the use of outlets in a minimum amount of space
- Store it in your purse, laptop case or drawer
- Plug in and/or charge up to (4) small devices such as your MP3 player, cell phone, PDA, or digital camera

APC® Metered & Switched Power Distribution Units

KW: apc-pdu

- Multiple outlets allow more control
- Remote monitoring for reliability
- LED indicators help you keep an eye on things
- Vertical mounting capability; takes up no RMS
- Single input source for more efficiency
- Includes: cord retention brackets, rack mounting brackets, tool-less mounting kit, user manual
- Alarm thresholds for reliable control
- Flash upgradeable

Socket Sense™ Adjustable Surge Protector

KW: socket-sp

- Movable sockets expand or contract easily to adjust to the fit you need
- Fully adjustable surge protector accommodates 6 plugs or adapters at a time and expands from 13" to 18"
- Sockets are angled at 45° for added ease
- From $29.87

Kendall Howard® Lan Station 48" Power Strip

KW: kh-16strip

- Perfect for horizontal mounting (mounts vertically with hardware)
- 400 Volts clamping voltage
- 15 Amp circuit breaker
- Assembly hardware included: (2) of each brackets, nuts, bolts and screws
- Ideal for multi-function workspaces in need of a safe and consistent power supply
- Call for project quote

AC/DC Power Distribution Panels

KW: acdc-pan

Organize your electrical distribution system in the safest and most efficient way with our AC/DC power distribution panel control systems. Designed for standard EIA, RS310 19" racks and cabinets, choose from 15 Amp or 20 Amp, surge suppressed or non-surge suppressed units.

- UL tested and recognized 1363/1449
- Digital current meter 1-19.99 Amps
- Accuracy: ± 0.1 Amps
- Sampling Rate: 2.5 per second
- 15 Amp or 20 Amp units
- Surge suppressed or non-surge units

RECEPTACLES

NEMA 5-15	NEMA 5-20	NEMA Twist Lock

PLUGS

NEMA 5-15	NEMA 5-20	NEMA Twist Lock

High Density Slim Power Strips

KW: slim-strip

It's perfect for low voltage applications in which you want to maximize every outlet using a minimum amount of space.

- UL and CSA listed
- Slim low-profile design requires less space
- (8) Outlets (with option of up to (24) outlets)
- Outlets spaced to accommodate plug-in power supplies
- (1) 15 Amp circuit
- Includes 10' power cord terminated with NEMA 5-15P plug
- Mounting hardware included
- Call for project quote

Table or Desk Miniport Power and Data Center

KW: pwr-center

The Miniport is the sub-compact series of the Interport family. This workspace accessory provides the convenience of power and data distribution within a smaller foot print.

- Prevents tripping accidents
- Retractable when not in use
- Ergonomic location to plug power and data
- Includes (2) power outlets and (2) open ports for data/ voice snap-in connectors
- (8) different colors / patterns available
- Slim design; only 6" X 3"
- Includes (1)6' 15 Amp cord
- Jacks purchased separately
- Voice/Data Adapter Kit included with each kit
- Reversible without removing computer power center base from work surface
- From $67.20

"MHO" Power / Data Distribution Unit

KW: mho-pwr

- Offers (2) data and (2) power ports within a professional-looking, clear anodized aluminum PDC
- Remains hidden within a nearly flush unit until "popped" open
- Choice of a 6' or 10' power cable
- Jacks not included
- Voice/Data Adapter Kit included
- From $123.34

Interport - Power Data Center

KW: int-center

Interport is the first power/data center of its kind. Lift the lid, plug in. Leave open or closed. Slip cords through the holes. Stand alone, or in modular multiples.

- Unique design allows cables to remain connected while the unit is closed to hide plugs
- Made of molded plastic that is available in several finishes to match your table or décor
- Comes with (2) power outlets and (2) empty ports that utilize the included Voice/Data Adapter Kit for personalized configuration

"Assemble" Power / Data Distribution Unit

KW: pwr-unit

The "Assemble" Power and Data Center (PDC) is an extremely professional and easy way to provide power and data to your table or desktop.

- Clamps onto any ¾" to 1¾" table or desktop
- Provides (3) power and (2) data/voice outlets
- Available with either a 6' or 10' UL listed power cable
- Finished with a clear anodized aluminum to give a professional look
- Jacks purchased separately
- Voice/Data Adapter Kit included with each unit
- From $104.38

Power / Communication Sphere Halves

KW: pwr-sphere

- No moving parts, which makes it ideal for high-use areas, such as schools, libraries, multimedia labs, conference rooms, etc...
- Halves are available in 2-port power and voice/data configurations to mix and match
- (2) Halves needed to create a full sphere
- Jacks purchased separately
- Available in black or transparent

deQuorum™ Flip-Up Worksurface Portal

KW: quo-flip

- Comes in black or stainless steel finish for a professional look
- Heavy-gauge steel offers quality and stability
- Available in single or double flip models, depending on amount of adapters and usage
- 15 or 20 Amp models with matching duplex power receptacles for most of your applications

Flexible Round Desk Grommets

KW: round-grom

- Plastic desk grommets allow for easy routing of cables
- Removable cover
- Hold cables in place for easy access
- Flexible slits make routing cables in different directions easy
- Standard in black and white, but also available in up to (11) different colors to match your décor

Tilt 'N Plug Jr.™ - Computer Audio, Video, Power Data Center

KW: tilt-jr

The Tilt 'N Plug Jr. offers an attractive and sleek solution for integrating computer video, audio, network, and AC power connections directly into your tabletop home theater system.

- Each panel includes power and data connections, and many also have audio and video ports
- Unit remains level with the table until the top panel is pressed to open
- Tilt 'N Plug Jr. can be ordered with custom configurations to suit your specific needs

Tilt 'N Plug Configurable Tabletop Interconnect Box

KW: inter-box

- Mounts into your table top to provide a quick and easy connectivity solution
- Allows you to customize your desk outlet to accommodate the needs of your boardroom or conference table
- Available with a large variety of configurations for every application
- Easily opens and closes by pushing the top panel

Cable Nook Interconnect Box

KW: cn-inb

- Easy installation and set up saves time
- Stays flush with table while not in use
- Removable cover
- Adjustable retaining ring keeps cables from falling through
- Deep design allows for additional storage
- Fits table surfaces 0.25" to 3" (6mm to 76mm) thick
- 4.66" height, deep design
- Matte black finish

The Edge™ Under Table Interconnect

KW: inter-edge

- Offers many configurations to be easily customizable
- Single power cord for (2) receptacles is not only convenient, but reduces the number of cables used
- No table or desk cutting required; mounts quickly with (4) screws
- Low-profile design for space efficiency
- Various configurations available

Cable Nook Modular Tabletop Interconnect Box

KW: cn-mod

Looking for a modular solution for plugging a laptop computer or video projector into your conference room table? Tired of crawling under your furniture to plug these items into your wall jacks or electrical outlets? We have the solution for you. Similar to the Altinex Tilt N' Plug and Pop N' Plug, the Cable Nook is a great way to access fixed connectors right from the tabletop. It also gives you the advantage of being able to store cable ends in a box below the surface of your computer furniture or conference room table. The box is mounted to the table, and the door opens up to expose the connections. Even when the door is closed, its half circle opening still allows for access to several wires and cables. The standard color is matte black.

- Completely customizable to suit your needs
- Many sectional plates available
- Accessories come with associated retaining screws for instant installation
- Made of metal for durability and strength
- Choose from power, data, and AV

Pop 'N Plug Power and Data Center

KW: pnp-dc

The Pop 'N Plug Power Data Center allows you to save the hole cut-out from your wood table and install it as the top of the Power Data Center.

- Available either pre-configured or custom configured
- Pop 'N Plug's top uses the cutout from your table or desk to maintain the look when lowered and not in use
- Each plate of the Standard Configuration contains (2) power outlets, a VGA port, (2) RJ45 ports, (1) RJ11 port, and (1) audio port
- A light press on the top of the retracted unit activates the gas spring lifting mechanism

ALTINEX

Ground Fault Circuit Interrupter (GFCI) Receptacles

KW: gfci-rec

Our Ground Fault Circuit Interrupter (GFCI) will protect you against the risk of electrical shocks and fires caused by ground fault, a type of current that can escape from electrical equipment whose insulation has been damaged. In order to prevent reverse wiring and current leakage, GFCIs can be used to replace standard duplex outlets in homes, offices, schools, hotels, industrial settings and retail spaces.

- Protects against the shocks, electrocution, and fire that can be caused by ground fault currents
- A National Electrical Code (NEC) requirement for outlets in the bathroom, kitchen, outdoors, basement, garage, or any other place where electricity and water will be in close proximity to one another
- Monochromatic receptacle, wall plate and button assembly gives outlets a neat, finished, and unobtrusive appearance
- 2006 UL listed (UL-943)
- Choose from 15 Amp or 20 Amp
- Durable polycarbonate construction
- Available in your choice of white or ivory
- 125 Volts AC, 60 Hz
- Red indicator light alerts you when the GFCI has reached the end of its life
- UL 94V-2
- Meets standard requirements for NEMA WD-6, ANSI WD-6, UL 498, CSA C22.2, and NOM 057
- Use to replace standard outlets anywhere an extra measure of electrical protection is needed
- From $6.99

360 Electrical Rotating Outlets

KW: 360-out

These rotating outlets allow you to plug in your bulky adapters from cell phones, MP3 players, and more without any obstructions. The 360° rotating outlet is the same size as any standard duplex receptacle, so it fits perfectly in electrical boxes.

- Outlets rotate to allow you to plug in bulky adapters
- Provides continuous power to components even while being rotated
- Top and bottom receptacles lock in (18) positions for flexibility
- Price $8.99

Leviton® Acenti® Surge Protection Receptacles

KW: lev-rec

Leviton's Acenti Surge Protection Receptacles provide excellent 3-level, point-of-use surge protection and meet all applicable certifications including UL, CSA, NOM, & FCC. Available in duplex or sixplex configurations with 14 Amp 125 Volt self-grounding receptacles for 5-15R straight plugs. Your choice of (7) designer colors.

- Soft blue LED light lets you know the power is on
- Audible alarm to alert if power is lost
- Use anywhere you have a normal electrical outlet
- Available in duplex or sixplex receptacle configurations
- From $35.00

Leviton® DECORA® Smartlock Pro® 15 Amp & 20 Amp GFCI Protection Receptacles

KW: lev-gfci

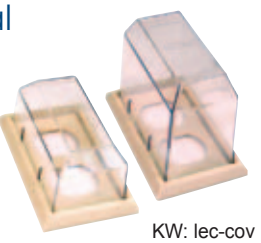
- Prevents power from being connected to appliances that aren't wired correctly with a line load reversal diagnostic feature
- The rip latch mechanism is a one piece T-design that operates efficiently, reducing the frequency of GFCI failures
- Price $15.49

ROTATOR™ The Swivel Socket™

KW: rotator1

- Great for travel – hotels and offices
- Eco-friendly lead-free product
- UL listed for your safety
- Allows you to rotate your existing outlets 360° to accommodate any size plugs
- Simple, easy to use design works well with any décor
- Small, lightweight body allows you to carry it with you
- Various quantity packages available for your convenience
- From $10.93

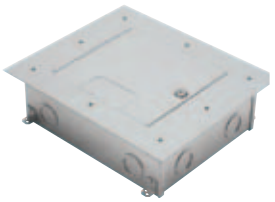
Lectralock™ Residential Outlet Covers



KW: lec-cov

- Protects you and your loved ones from the dangerous fire-igniting sparks that can fly when power cords become partially unplugged
- Innovative design has a tamper-resistant casing to prevent entry by a child
- The outlet plates install easily with just (1) or (2) screws
- From $7.56

FSR FL-500P Floor Box

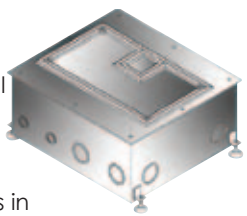


Versatile floor box allows you to install power, audio, video, telecommunications, and data ports all in one location.

KW: fsr-box

- Ideal for creating in-floor power access in just about any application
- (10) different cover designs available for custom looks
- Low-profile edging prevents tripping hazards on installed floors
- Available in 6 box depths for use in many different floors
- Constructed of sturdy 11-gauge steel
- Boxes are UL 514A listed to prevent water from entering or accumulating in the box
- Easily converted to a wall box with model JL cover

FSR FL-600P Floor Box



KW: fsr6-box

- Large floor box features (11) total gangs
- Constructed of heavy duty 11-gauge steel
- Includes a total of (18) knockouts in (4) different sizes (½", ¾", 1", and 1¼") for connecting various sizes of conduit
- Versatile floor box allows you to install in carpeted floors, tile or wood
- No carpet panel lifter needed

Arlington Industries Single and Dual Gang Recessed Electrical Boxes

KW: arl-box

- Your electrical plugs won't extend past the wall like they do with your standard outlets
- Can be used with power or low voltage applications
- Allows you to place furniture, armoires and anything else closer to the wall so there is no unsightly gap
- Match any décor in your home with the paintable and textured trim plate

FSR SmartFit Floor Boxes

KW: flr-box

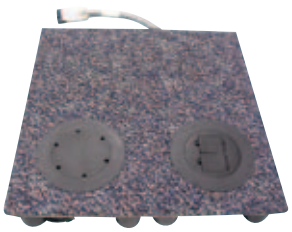
- Available with Active Computer Interface connections for A/V signals up to 150 feet
- Oversized conduit tubes give increased cable capacity
- Universal covers come in brass, silver and black, to match décor
- Delivers uniform and professional look throughout
- From $111.38

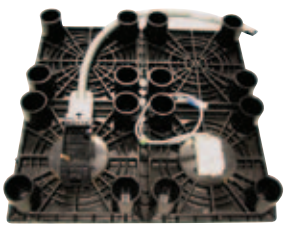
Raised Floor Cable Management System

KW: raise-floor

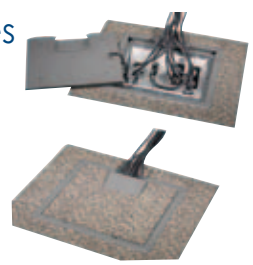
Powerflor© is a complete low profile cable management system that includes electrical power outlets and cabling, voice/data outlets and cabling, and a completely modular carpeted chaseway floor. Powerflor© is an alternative means of providing the cabling infrastructure to an interior environment.

- Modular design cuts down on installation time and cost, and simplifies future changes and additions
- Standard size 18" x 18" x 3" panels are made from an impact modified polycarbonate material that has been tested to support a load of 41,000 lbs per square foot, and features 2" of height for cabling underneath
- Outlets can be disconnected and reconnected without any tools, making floor plan modifications fast and simple
- Carpeted panels shipped with a Volara® foam underlay that prevents lateral movements and reduces noise
- All Powerflor materials are PVC free; PVC can be a potential health risk if the material encounters fire
- Each panel can have up to (4) grommets of either duplex power or data outlets to accommodate any floor plan
- Call for project quote





FSR RFL-QAV Floor Boxes



KW: qav-box

These RFL-QAV floor boxes are perfect for raised floor applications requiring audio, video, and power access in one location.

- Constructed of solid 14-gauge steel for durability
- Oversized cable door accommodates a variety of different cable types and sizes
- Uses standard sized electrical plates and comes in (3) colors for a fully customizable installation
- Mounting clamp's superior design handles a wide variety of floor thicknesses, from ¼" to over 2"
- Knockouts in various sizes are provided to accommodate metallic and nonmetallic raceway

From crimpers and cable fishing supplies to hole saws and insulated screwdrivers, CableOrganizer is your source for tools from Klein, Fluke, Gem Electronics, Greenlee, Ideal, Jameson and more. In additon to tools, we also offer a full line of bags and boxes to carry them in, ranging from stylishly functional tool totes by Klein and Veto Pro Pac, to ruggedly utilitarian job boxes and storage chests from Greenlee and Excel International.

- PVC Electrical Tape
- Tape Measure
- Components Box
- ABS Molded Tool Case: 18.5" x 14.1" x 6.3"
- Price $217.55

81-Piece Network / Coaxial Installers Tool Kit

KW: 81pc-kit

This tool kit includes all of the tools needed to install and maintain a coaxial network, along with cutters, pliers, and sockets, all contained within an attache-style case.

- 9" Modular Crimp Tool provides you with dies for crimping RJ-11, RJ-45, RG-58, RG-174 and fiber connectors
- Super torque and changeable shank ratchet drivers include sockets and Phillips, slotted and star bits to cover any situation
- Price $269.50

IDEAL Economy Data and CATV Kit

KW: eco-kit

- Good for data, CATV, and Cat 5 jobs
- Pieces can be purchased separately as replacement parts
- Kit includes: Data T-Cutter, Economy Coax Stripper, Economy UTP Stripper, Non-Impact Turn Lock Tool with 110 Blade, Telemaster RJ-11/RJ-45, Economy Compression Tool, Mechanics Bag
- Price $126.21

Gem Electronics Compression Crimper / Wire Stripper Tool Kit

KW: gem-kit

- Weatherproof connectors allow you to work in conditions that are not always dry and perfect
- Connectors have a tensile strength twice as strong as standard connectors
- Lightweight and portable, this is a very convenient kit to include in any installer's tool arsenal
- Price $172.50

IDEAL RJ11/RJ45 Telemaster Kit

KW: telem-kit

- All-in-one tool cuts, strips and terminates RJ 11 and RJ 45 cables
- Rugged steel construction
- Easy to use lever action
- Kit includes (10) of each:
  - 8-position RJ45
  - 6-position RJ45
  - 4-position RJ11
- Price $48.83

Greenlee Tugger® Cable Puller Power Unit

KW: gl-640

The Greenlee 640 Tugger is an economical and powerful puller. Even under the most challenging circumstances, the 640's light weight makes it the tugger of choice. The leaf type chains won't twist when tightened, allowing for exceptional usability.

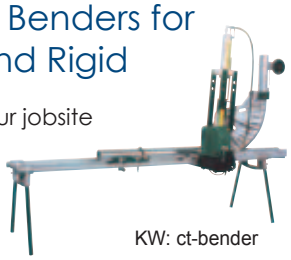
- Powerful puller can handle most of your pull job needs
- Portable, thanks to manageable weight
- Leaf-style mounting chains won't bend, twist or tangle when in use
- Included in box are the 640 Tugger and Vise Chain Unit (GL-29631)

Depthfinder™ Steel Fish Tapes

KW: fsf-tape

- Tempered high quality ⅛" wide steel tape
- Permanent, laser etched 1' increments on the tape allow you to more accurately measure the depth of conduit runs
- Polypropylene case and handle offer maximum shock and impact resistance
- Raised finger grips help transfer 100% of the winding power from your hand and fingers
- From $17.54

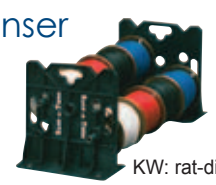
Cam Track® Conduit Benders for 2½" to 4" EMT, IMC and Rigid



KW: ct-bender

- Offers fast, easy set up at your jobsite
- Now you can bend rigid, IMC, and EMT conduits… all on a single bender!
- CT models are capable of true One-Shot 90° bends
- The Cam Track® can complete a 90° bend in 4" Rigid conduit in only 95 seconds
- Steel-reinforced follow bars

Rack-A-Tiers® Wire Dispenser



KW: rat-disp

- Not limited to cables: also great for spooled rope, chain, hoses, bungee cord, twine, braided sleeving and more
- 330 lb weight capacity means you can store a sizable amount of spooled material in a surprisingly small space
- (5) 1¾" cable-bar holes give a wide range of configuration options
- Extra strong V-notch supports larger cable bars
- Price $76.85

Jameson Sectional Push Rod Kit

KW: jsp-kit

The Jameson Sectional Push Rod Kit offers high strength and extreme flexibility, and is a unique non-conductive solution for pushing or pulling wire and cables. These rods are constructed of durable luminescent fiberglass that glows in the dark. The threaded sections allow easy rod-length customization for any job.

- Strong and extremely flexible
- Unique non-conductive solution pushes or pulls wire or cables in retrofit jobs
- Constructed of luminescent fiberglass that glows in the dark so you won't loose your tools in crawl spaces
- The threaded sections allow easy customization of rod length for any job
- Rods are available in two diameters (¼" and 3⁄16") which can be used in any combination to add greater versatility
- Additional accessories offer the versatility to handle any wiring situation, and can be purchased to assist with a variety of tasks
- Glow-in-the-dark rods make it easy to fish and pull cables in dark walls, ceilings, crawl spaces and floors
- From $9.94

ACCESSORIES* INCLUDED IN KIT:

Bullet Nose with Eyelet: serves to attach wire or cable for pushing or pulling

Hook: Allows to pull wires or cables

*Accessories included in kit may vary slightly

Greenlee CableCaster®

KW: gl-cablecaster

The CableCaster® is an exceptional tool for professional wire and cable installers, as well as do-it-yourselfers. It significantly speeds up the installation of lightweight communications cable through hard-to-reach spaces such as suspended ceilings, rafters and sub-floors.

- Installs cables in hard-to-reach spaces
- Shoots glow-in-the-dark aerodynamic darts up to 50' (15m)
- Optional flashlight has a high-intensity Xenon lamp (batteries included)
- Price $64.84

18" Pocket Canvas Tool Bag with Naugahyde® or Leather Bottom

KW: kt-18bag

The best way to arrive at any job site is equipped and ready to go; this new 18" canvas tool bag allows you to carry durability and strength right at your side. If you are looking for a reliable and tough way to hold a wide assortment of tools, small parts and accessories, you may have found your match.

- Generous size and tough construction support large and heavy tools
- Reinforced leather or Naugahyde® bottom combats ground moisture and protects wear points
- Studs on underside of bag reduce contact with the ground and help prevent abrasion
- Strong harness handles and retaining straps let you confidently carry and transport tools
- Steel-frame mouth opens wide for easy access to tools
- (10) Internal pockets for easy organization
- Wide opening provides easy access to large tools
- (2) Black harness handles and retaining straps
- Constructed of strong No. 8 natural canvas
- Colors available: natural canvas, orange, blue, yellow
- Price $115.58

VETO PRO PAC Open Top Tool Bags

KW: veto-bag

Not only is Veto Pro Pac's open-top tool bag one of the best looking tool totes on the market, but it also allows you to easily carry oversized items, thanks to its lack of closed-top constraints. From its heavy-duty hardware and zippers to marine-proof rivets and commercial-grade double stitching, the Veto Pro Pac Open Top is built to last.

- Made of weather-resistant, PVC-impregnated 1800 denier fabric for long life
- Stores tools vertically instead of horizontally so you can quickly locate, identify and retrieve them
- From $134.95

ToughWear™ Rolling Tool Bags

KW: tw-rollbag

Save your back and carry tools effortlessly with Rolling Tool Bags from ToughWear™. The choice is yours: transport heavy loads by making use of the bag's built-in wheels, or just pick up by the handles and carry for smaller loads.

- Rugged fabric woven of high-density yarns to stand up to daily jobsite abuse
- Heavy-duty oversized wheels stand up under heavy loads while tackling tough terrain
- Sturdy telescoping handle locks into 4 positions so you can adjust it to suit your needs
- Price $59.99

Deluxe Leather Bag

KW: del-leather

- Made of rugged, extra-heavy leather for long life
- Padded shoulder strap can be attached and removed as needed
- 3-ply bottom
- Retaining straps provide extra support
- Steel studs protect bottom of bag from abrasion and ground moisture
- From $285.89

Klein Tools Series I Tool Boxes

KW: kt-se1

- Attractive black finish with nickel drawer pulls
- Smooth operation, full extension ball bearing drawer slides
- 75 lb drawer load capacity
- Locking system to secure tools
- Tubular side handle for easy mobility
- 1200 lb total load rating

SC-480 Excel International 48" Safety Chest/Job Box

KW: excel-box

- Sturdy 16-gauge steel body construction means this chest will stand up to your heavy duty needs
- Equipped with two locks for additional security so you know your equipment is protected
- Recessed handles are non-protruding, so they won't get in your way

Klein Tools Insulated 22-Piece General Purpose Tool Kit

All (22) insulated pieces of this kit come in an extra sturdy, bright yellow case, with two pallets custom-fitted with pockets for each tool. Piano-hinged covers have both a combination lock and two key-locked latches for extra security around the job site.

KW: kt-22pkit

- NFPA 70E compliant
- ASTM F 1505-01
- IEC 60900:2004

Greenlee Gator-Pro™ CCX Crimp Tools

- 360° rotating head adjusts to your work position
- Lightweight, with an ergonomic angled handle for comfortable, low-stress use

KW: gl-gator

- Cycles in seconds with two-speed hydraulic pump, maximizing productivity
- Automatic retraction when crimping and cutting cycles are complete
- Includes a high-impact molded carrying case

AUTOLOADER® Multi-Bit Screwdriver

- Preloaded magnetic bits are held tightly and prevent loss on jobsite
- Bits are kept in the body of the screwdriver to make them easy to identify and load

KW: autoload

- Available in:
  - Classic style for general every day use
  - Professional style for heavy duty jobs
- From $19.95

Accessories

- Eyewear
- Cleaners/Degreasers
- Locks
- Cordless Caulk Guns
- Saws
- Hard hats
- Gloves
- Tape measures
- Levels
- And more...

KW: acc-1

Klein Tools 41-Piece Journeyman Tool Set

- Comfortable and durable tools for the professional.
- Contains (1) Journeyman™ side-cutting pliers, (1) Journeyman™ diagonal-cutting pliers, (2) Journeyman™ long-nose pliers, (1) Journeyman™ pump pliers, (1) Journeyman™ crimping/cutting tool, (1) Journeyman™ cable cutter
- (2) Klein-Kurve® wire strippers/cutters, (1) Klein-Kurve® utility knife, (2) adjustable wrenches, (3) keystone-tip screwdrivers, (3) cabinet-tip screwdrivers, (2) Phillips-tip screwdrivers, (1) wire-bending screwdriver
- (1) square-recess tip screwdriver, (1) Rapi-Driv® screwdriver, (1) conduit-fitting and reaming screwdriver, (1) 12-piece hex-key set, (7) nut drivers, (1) awl, (1) torpedo level, (1) pair of protective eyewear, (1) cable splicer's kit, (1) canvas zipper bag
- (1) Power-return rule, (1) 120' Speedway® fish tape, (1) shoulder strap, (1) 18" 10-pocket tool bag

KW: kt-41pc

Coaxial Cable Cutter

Klein's new Coaxial Cable Cutter is designed to cut up to 1" diameter coaxial cable with precision one-hand shearing action.

- Endures frequent cutting, thanks to heat-treated precision-ground steel blades
- Scores jacket and insulation and cuts through center conductor in a single motion with one-hand shearing action
- Hot-riveted design provides smooth, precise operation and eliminates the need for adjustments
- Comfortable use and solid grip from plastic-dipped handles
- Price $48.18

KW: kt-ccc

Pro-Grade Impact Punchdown Tool

KW: pg-punch

Our professional-grade punch tool with 110 twist-lock blade (punch and cut) makes it simple to neatly and efficiently terminate cross-connects and wall jacks, whether you're at your workbench or in the field. Adjustable high-low actuation settings let you customize the level of blade impact to different connection block and jack styles, so you end up with a perfect punchdown every time. Built into the tool is a locking storage compartment, which keeps spare blades conveniently at hand for whenever you may need them.

- Suitable for 110 cross-connect
- Terminates 66, 110, BIX and Krone cross-connects and wall jacks
- Reversible termination block for punch and cut or punch only
- Seats wire for a corrosion-resistant termination, then trims off excess
- Spring loaded for fast, low-effort wire seating and termination
- Internal impact mechanism eliminates jamming for longer, trouble-free service life
- Adjustable low and high-impact force settings
- Spare blade storage in the handle
- Price $42.00

Replacement Blades for the Punchdown Tool:

- Cut side labeled to eliminate costly punching errors
- Made of high-carbon tool steel, heat-treated and precision ground for long life
- Reversible blades for seating/cutting, or seating only for jumper wires
- Rust-resistant finish

Greenlee GL-655 Kwik Change™ Stainless Steel Hole Cutter Kit

KW: gl-655

The Greenlee Kwik Change™ Stainless Steel Hole Cutter Kit GL-655 cuts stainless steel quickly and easily. Thanks to the flange stop, there's no more over drilling. Sturdy construction makes for high performance and durability.

- Kwik Change™ design allows you to change cutter heads easily - just push and turn
- One arbor head is used with different sized cutting heads, which saves you money
- Price $144.50

Fluke® Networks JackRapid™ Punch Down Tool

KW: fluke-punch

JackRapid allows you to terminate jacks eight times faster than traditional impact tools - with accuracy that's unmatched. The patented jack termination tool seats and terminates all wires simultaneously. With JackRapid, you'll never punch into the palm of your hand or through drywall again.

- Cuts installation time - easy to use design, seats and cuts all wires at once, saving you up to two minutes of installation time per jack
- Price $74.00

Quick Draw Hydraulic Punch Driver and Kits

KW: gl-qdpunch

- Quick Draw® is perfect for fast, straight-on front panel punching
- Compact, lightweight design for portability and fast, easy one-person operation
- Develops (8) tons of hydraulic force for easy punching, even in 10-gauge stainless steel (depending on individual punch capacities)

Ideal Ironman™ Bimetal Hole Saws

KW: iron-hole

- Combines a flexible cup or back plate with strong variable pitched cutting teeth to assist with debris removal for faster, cleaner cuts
- Variable pitch has lowered vibration to reduce friction and heat that can ultimately damage your saw
- From $7.64

Greenlee Hole Saws, Arbors, and Pilot Draws

KW: gl-hole

- Replacement for any lost or worn hole saws in Greenlee Hole Saw Sets
- Cuts through tin, aluminum, fiberglass, wood, and plastic
- Extra-tough M42 high-grade steel alloy blade
- Extra thick back plate to minimize vibration
- From $6.93

Bench Mount Hot Knife

110 VAC, 165 Watts, fast heating (up to 1200°F), lighted switch. Allows for fast cutting and sealing of braided sleevings, all at the same time. Warms up in only 8 seconds.

KW: bmh-knife

- Cuts and heat seals at the same time
- Will cut through a 1" Nylon line in less that 10 seconds
- Heats up to 1200°F
- Lighted ON/OFF rocker switch
- Comes with a 2⁵⁄₁₆" blade
- 6½" cord with ground
- (4) Pre-drilled holes for permanent mounting
- Price $109.99

SHARKSAW RockEater® and Compass Saws

KW: shark-saw

- Extra thick blade design resists bending and breaking when cutting through drywall or wall panels
- Industrial strength handle has non-slip grip for long-lasting comfort
- Teeth are electrically hardened to improve longevity. Teeth stay sharper 2 to 3 times longer than conventional saws
- From $10.23

Frameless Safety Glasses by Klein

KW: kt-glass

- Protect your eyes from potential hazards
- Durable and scratch resistant, with permanently bonded anti-scratch coating
- Fog resistant due to lens ventilation channel
- 99.9% UV Resistant
- Comfortable and customizable fit – soft nose piece, flexible and adjustable temple pieces
- From $11.88

Tape Measure - Magnetic Tip Power Return 25'

KW: mtape-25

- Rare Earth magnetic tip sticks to iron and steel surfaces, so you don't need another person to hold the tape end in place
- Non-slip rubber jacket gives you a firm grip on the case and protects tape measure from fall impact
- Two-step lock button lets you slow blade retraction, or lock blade in position
- Price $24.85

120V Hand Held Hot Knife, 150 Watt

KW: hhh-knife

The Hand Held Hot Knife is a useful tool for cutting and searing the ends of braided sleeving, nylon rope, and other similar materials. A hot knife cuts and protects from unraveling in one motion. It only takes seconds for this unit to heat up and be ready for use.

- Comfortable handle with On/Off Trigger
- 5' power cord
- UL Listed
- 1 ½" wide blade included
- Reaches up to 450°F
- 120 Volt, 1.5 Amps, 150 Watts
- Cuts and seals sleeving and rope to prevent fraying
- Price $49.99

ZETZ-24 and ZETZ-25 Thermocutter

KW: zetz-cutter

The ZETZ-24 features an electrically heated blade designed for cutting thermoplastics easily and effortlessly. This unit is designed for continuous, industrial operation: including on-off batch production. Set for ON/OFF or CONTINUOUS operation at the flip of a switch. It uses very little power and decreases temperature buildup in the handle.

- High heat design for continuous heavy duty industrial use
- Infinitely adjustable transformer with variable controller for greater temperature control
- Price $1,595.00

Jameson Fluorescent Work Light - E Series

KW: jfw-light

With standard adjustable hanger hooks, a protective shatterproof tube shield and electronic ballast combined in the handle, Jameson fluorescent work lights are known for their toughness and durability.

- 110 Volts AC high intensity light
- High frequency electronic ballast gives a flicker-free light
- Unique design of thermostatic elastomer handles and end caps absorb impact, allowing longer bulb life
- Ideal for places where work space is limited
- From $104.89

With countless applications in the fields of electronics, automotive, home theater, telecommunications, marine and aviation, heat shrink tubing's protective and decorative properties can enhance cables and wires in just about any situation or environment. Heat shrink tubing is commonly used to:

- Label network cables
- Protect cable splices
- Insulate vehicle and aircraft wiring against corrosive chemicals
- Terminate braided sleeving
- Customize computer cables for case modding

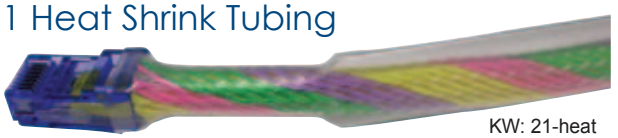
2:1 Heat Shrink Tubing

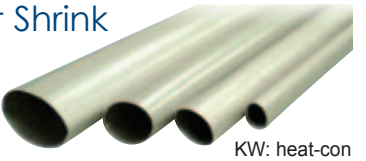


KW: 21-heat

Manufactured from an extruded polyolefin that has been radiation cross-linked to make it heat-shrinkable, our high-performance, multipurpose tubing has excellent electrical, chemical, and physical properties that make it perfect for a wide range of applications. It's used extensively for cable and wire harnessing, strain relief, insulation, color-coding, identification and protection against fluids in military and commercial environments, as well as in consumer/OEM markets that demand materials that meet Underwriters Laboratories (UL) and the Canadian Standards Association (CSA) requirements.

- 2:1 shrink ratio means that the tubing can be shrunk down to one half of its original (expanded) diameter
- Excellent flexibility and electrical, chemical and physical properties make this tubing truly high performance
- Designed for use in many different applications, including military vehicles, aircraft and communications equipment, as well as commercial and industrial environments
- Flame retardant – rated to UL 224 VW1
- RoHS compliant
- Cuts with scissors, shrinks easily around wires, cables, hoses and connectors with either a heat tool or hot-air gun
- Sold by the foot or spool with (12) colors to choose from
- Dual wall adhesive-lined 2:1 heat shrink available
- Tubing also available in 3:1, 4:1, 6:1, and 1.6:1 shrink ratios
- From $0.50 by the foot

Conductive Heat Shrink Wire Connectors



KW: heat-con

EMC ShrinkMate heat shrink wire connectors are composed of MIL Standard R-46846 polyolefin tubing, and lined with a highly conductive inner diameter coating of silver polymer thick film.

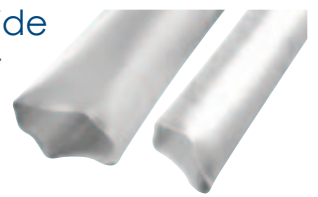
- When used to join coaxial or electrical cables, the inner coating provides a connection between the two splices
- Offers shielding from EMI, RFI, and ESD to protect the cable joints
- NASA Sp-R-002A and ESA PSS-01-702
- Eliminates soldering
- From $3.99 per foot

Heat Shrink End Caps

KW: heat-caps

- Insulates and seals off wire and splice terminations to protect against abrasion, moisture, chemicals, and corrosion
- The end cap is adhesive-lined to bond with the heat shrink it overlaps
- Available in sizes from ⅜" to 5" in diameter to provide a good fit around almost any cable end
- From $0.70 each

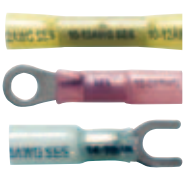
Polyvinylidene Fluoride (PVDF, Kynar®) Heat Shrink Tubing



KW: pvdf-heat

- Outstanding chemical, abrasion and cut-through resistance
- Offers a continuous operating temperature range of 302°F to 347°F (150°C to 175°C)
- Flexible PVDF has MIL-DTL-23053/18 Class 2 approval
- Semi-Rigid PVDF has MIL-DTL-23053/8 approval
- From $5.49 per 4ft stick

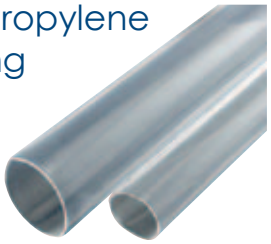
Krimpa-Seal Heat Shrink Butt Splices



KW: krimpa-heat

- Translucent polyolefin tubing allows you to visually inspect connections prior to shrinking
- Allows you to create securely sealed repairs and wire splices
- Ideal for maintenance and wire repair in automotive and electrical applications
- Hot-melt adhesive lining helps to provide a waterproof seal for your connections
- From $13.90 per pack

Fluorinated Ethylene-Propylene (FEP) Heat Shrink Tubing



FEP heat shrink tubing is a common alternative to PTFE, with similar electrical and friction properties and chemical resistance. FEP heat shrinkable tubing conforms to MIl-I-23053/11, and UL 94V-0, VW-1, and is suitable for continuous use at temperatures up to 204°C.

KW: heat-fep

- Less expensive alternative to PTFE
- Conforms to military specifications outlined in MIL-I-23053/11
- FEP has also been approved with FDA and USP Class VI
- From $1.99 per foot

Adhesive Heat Shrink Tape

- Allows you to use heat shrink without disconnecting cables or hoses
- Creates custom waterproof splices on damaged cables

KW: heat-tape

- Withstands high temperatures so it can be used in various locations
- Available in heavy and standard wall construction
- From $14.92

VT-1100 Heat Gun

- Use it for heat shrink, auto repair, frozen pipes and equipment, paint and varnish removal, and adhesive softening
- Variable temperature control dial lets you tailor the heat gun to a wide range of jobs
- Built-in safety stand keeps heat gun balanced when you stand it on surfaces

KW: vt-heatgun

- Temperature can range from 250°F to 1100°F
- Price $59.99

K-Sun Label Shop® Bee 3 Label Printer

- Over (60) different label size and color options available to customize your labeling project
- Prints on heat shrink labels for labeling wires
- (6) bar-code formats for asset management

KW: bee3-print

- Clear (12) character, (2) line LCD screen for great visibility and easy label previewing
- From $79.00

Polytetrafluoroethylene (PTFE) Heat Shrink Tubing

PTFE heat shrink tubing is available in 2:1 and 4:1 shrink ratios, and is widely used in military applications (MIL-I-23053/12) because of its high continuous use temperature (250°C) and outstanding chemical resistance.

KW: heat-ptfe

PTFE heat shrink tubing is the most difficult to shrink of the (3) fluoropolymer materials, due to its extremely high shrinking temperature (325°C to 340°C). You can use a heat gun or welding torch to shrink PTFE, but these methods have a tendency to cause the material to overheat in small areas, while under-heating other areas, resulting in uneven shrinking and potential burning of the material. The most reliable method for shrinking PTFE is the use of a controlled temperature oven.

- Its high continuous operating temperature range of -454°F to 500°F (–270°C to 260°C) makes PTFE perfect for extreme-temp applications in military vehicles and aircraft
- Outstanding resistance to almost every known chemical
- Very low friction
- Good dielectric strength
- Flame rated to UL 94 V0 and VW-1
- Sterilizable in an autoclave or ETO (ethylene oxide) sterilizer
- Limiting Oxygen Index (LOI) is greater than 95
- Meets MIL-I-23053/12 requirements
- Color: natural
- 4:1 shrink ratio and/or dual-wall (adhesive lined) PTFE also available
- From $4.14 per foot

UV Reactive and glow in the Dark Heat Shrink

Looking for UV reactive or glow in the dark heat shrink? CableOrganizer now carries several varieties. Our stock of PVC heat shrink, in bright UV reactive neon colors, is available in a 2:1 shrink ratio and five different diameters (¼", ⅜", ½", ¾", and 1"). Colors currently available are luminous, neon pink, neon yellow, neon green, luminous green, and gold.

KW: uv-heat

- Low shrink temperature; highly flame retardant
- Resists most chemicals and oils
- From $0.72 per foot

The name may keep you guessing, but Wire Loom is actually one of the most basic and straightforward cable management tools available. To put it simply, wire loom is a type of flexible, corrugated tubing that can be used to organize and protect unruly cables just about anywhere, from behind your computer desk to inside your car's engine bay. Made of materials like nylon, aluminum, and high-performance PTFE, CableOrganizer wire loom is available in split styles that allow easy installation and cable updates, or in solid non-slit tubing form to contain cable runs in riser and plenum spaces.

For additional wire loom products, visit us at:
http://cableorganizer.com/wire-loom/
or call us toll-free 24/7 at 1-866-222-0030

To simplify shopping online at http://cableorganizer.com, just type any product's KW (keyword) code into our Search, and you'll receive instant access to full product details, specs, photos and pricing.

Split Wire Loom, Flex Tubing, Split Loom Tubing

KW: split-wireloom

The Flex Tubing Cable Organizer is a plastic (polyethylene) corrugated split tubing. It is manufactured in different sizes ranging from ¼" inner diameter (6mm) to 3½" (88.9mm). Our tubing offers excellent protection for wiring harnesses, cables, tubing and hoses. It is very lightweight, has excellent flexibility, and provides protection from abrasion, puncture, vibration and friction. It also protects against heat (up to 200°F), sunlight, water, snow, ice, salt, and automotive fluids. Split loom corrugated tubing is ideal for wrapping up your cables and organizing them into a neat package. Instead of having multiple tangled wires and cables, you are left with one neat and orderly cable bundle.

- Protects cables from abrasion, puncture, heat, sunlight, water, snow, ice, automotive fluids, and friction
- Takes messy cables and wraps them into a neat and organized bundle
- (11) sizes available to suit any application, with sizes ranging from ¼" inner diameter (6mm) to 3.½" (88.9mm)
- Pre-slit for easy installation and convenient cable access
- Available in a variety of colors to match any décor
- Protects against heat (up to 200°F)
- From $0.65 per foot

BEFORE

AFTER

Wire Loom Tees / T-Connector

KW: loom-tcon

Our Wire Loom T-connectors are perfect for creating wire loom junctions in spots where cable harnesses need to be split apart and rerouted in different directions. T-connectors join (3) sections of wire loom neatly, with no unprofessional-looking unfinished edges or messy taping. Widely used in automotive, construction, and industrial applications.

FREE Wire Loom Installation Tool with every purchase of wire loom

Bulk Wire Loom - Split Flex Tubing

KW: bulk-loom

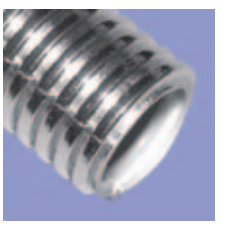
- Variety of sizes (¼" to 3½") to protect all of your wires, cables, or hoses
- Side entry for easy installation
- Wire loom is the most economical cord/wire organizer
- Select colors to match your décor, and to help you identify different bundles
- Both the nylon and polyethylene plastic protect against extreme outdoor conditions and automotive fluids

Cable Tamer Organizers

KW: cab-tamer

- One 5' cable control tube - ¾" diameter
- Unique split in the middle of the tube, which allows for easy cord breakouts
- (4) reusable ties and labels
- Used for computers, audio, video, telephone, and more
- Eliminates wire clutter to achieve a very modern look, especially with glass tables and furniture
- Price $8.95

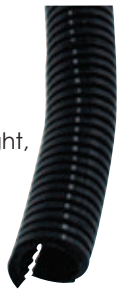
Bentley-Harris ConvoShield™



KW: bh-cshield

- Provides thermal protection
- Tested to withstand high temperatures up to 1000°F (500°C)
- Composed of a nylon copolymer base substrate and a highly reflective coating
- Slit lengthwise for easy installation over already terminated cables and hoses
- From $8.95

Flexible Nylon Convoluted Wire Loom



KW: fnc-loom

Our tubing offers excellent protection for wire harnesses, tubing, hoses and cable. It's lightweight, very flexible, provides abrasion protection and crush resistance, and is easy to install over wires.

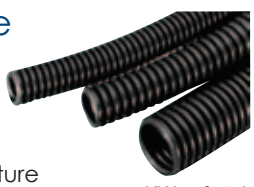
- Impervious to a 257°F (125°C) continuous temperature rating
- Lasts for 180,000 miles under typical driving conditions before any signs of degradation
- Lightweight, flexible and crush resistant
- Provides abrasion protection
- Plasticizer-free wire loom will not emit windshield-fogging gases
- Volume pricing available

Flame Retardant Polypropylene (PP) Wire Loom

KW: pp-loom

- Polypropylene offers better resistance in higher temperatures
- Contains flame-retardant additive
- Passed the UL 94V-2 flame test
- Readily available in bulk boxes of 50' - 100' lengths
- Volume pricing available

Polytetrafluoroethylene (PTFE) Convoluted Tubing



KW: ptfe-tub

- Continuous operating temperature -454°F to 500°F (-270°C to 260°C)
- Outstanding resistance to almost any chemical known (exceptions: alkali metals in molten state, fluorine gas at high temperatures, chlorine trifluoride)
- Very low coefficient of friction, UL 94V-0 Flame rated
- From $5.00 per foot

Richco® Flame Retardant Slit Harness Wrap

KW: richco-wrap

- Datacom Industry
- Wire Harness Industry
- Telecom Industry
- Electrical Industry
- Office Automation Industry
- Aircraft Industry
- From $1.60 per foot

KWIKPATH™ Optical Fiber & Communication Raceways

KW: kp-raceway

This is the ideal raceway for running optical fiber cables and plenum-rated communication wiring through plenums or other spaces where heat and smoke resistance is required. Its heat and smoke resistant properties make it ideal for use in any environmental air handling space. Sequential markers every foot make measuring the right amount even easier.

- Choose from residential, riser or plenum raceways
- Raceways and fittings are UL 2024 Plenum-listed to protect your cable investment
- Available in ¾" to 2" sizes in 200' boxes or reels for larger projects
- So flexible that you can bend it by hand to get around twists and turns in areas where space is limited, saving time and material costs
- Available accessories:
  - Y-coupler bends and reduces long runs of raceway around tight corners
  - Cutting tools allow you to make precise cuts in Kwikpath™ Communication raceways
  - Easy-to-use seal end plugs protect unused raceway from being damaged
  - Clamps and spacers hold installed raceways firmly in place
- Volume pricing available

Riser Convoluted Raceway

KW: rc-raceway

CableOrganizer.com Plenum and Riser raceways are ideal for installations that call for plenum or riser-rated materials. CableDuct PL exceeds the UL 2024A (formerly UL 910 Steiner tunnel test) requirement for fire and smoke release, and conforms to NEC 2002 Section 770 and 800.

- Nylon-resin riser raceway is corrugated and non-metallic
- All sizes come standard with pre-installed UL listed Kevlar® pull lines
- Extremely flexible, will not kink when bent during normal usage - ideal for fiber optics
- Available in orange and white
- Available in sizes from ½" to 2"
- Volume pricing available

Woven of flexible filaments that allow it to expand, contract, and fit snugly around many different cable and connector shapes, braided sleeving is the perfect product for creating neatly bundled cable snakes, or adding cosmetic enhancement and extra protection to custom computer, home theater, and automotive cables. CableOrganizer offers a wide variety of braided sleeving in materials like nylon, PET, fiberglass, stainless steel, Halar®, Kevlar®, Nomex®, Teflon®, Ryton® and more.

For additional braided sleeving products, visit us at:
http://cableorganizer.com/wire-management/
or call us toll-free 24/7 at 1-866-222-0030

To simplify shopping online at http://cableorganizer.com, just type any product's KW (keyword) code into our Search, and you'll receive instant access to full product details, specs, photos and pricing.

PET Expandable Braided Sleeving

PET is used for an infinite variety of applications. Due to its expandable nature, PET's unique braided construction enables quick and easy installation over large connectors. Possible applications include wires, harnesses, cables, hoses, springs, rods, and chains. It is readily used in the automotive, computer, industrial, scuba, electronics, wire harness, and A/V industries, as well as in military, aviation and MRO.

KW: pet-sle

- Lightweight, flexible, and easy to install
- High tensile strength
- Cut and abrasion resistant
- Gives a professional look to finished products like custom A/V cables, computer case mods, and automotive wires and hoses
- Unique braided construction conforms to uneven shapes, and fits easily over large connectors
- Resists and dissipates moisture to prevent fungus and rot (in compliance with MIL-E-5272)
- UV-resistant Polyethylene Terephthalate (PET) yarn
- Monofilament size: 0.01"
- Retains its properties in extreme high and low temperature environments
- Will not degrade during or after exposure to a wide variety of fluids and solvents
- RoHS compliant
- Neon pink, neon red, neon green, neon yellow, nitrox, ice cream and blue are UV reactive
- From $0.35 per foot

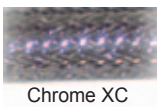
Non-Skid Slip Resistant Expandable Braided Sleeving

KW: slipres-sle

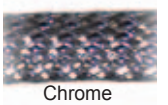
Woven of PET and high-friction polymer yarn, our non-skid sleeving was originally designed for use in the entertainment industry, where cable snakes often run across the floors of studios, sets and stages. Because it grips the floor when stepped on, this sleeving prevents slip-and-fall accidents when cables are underfoot.

- Lightweight and flexible
- Increased safety in high traffic environments
- Cut and abrasion resistant
- Halogen free
- Volume pricing available

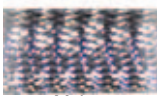
Chrome XC Expandable Braided Sleeving



Chrome XC



Chrome



Mylar

KW: xc-sle

- UV resistant
- 2-1 expansion ratio
- Operating Temp. -103°F to 257°F
- Easy to install, lightweight, and flexible
- Mildly conductive for shielding and insulation
- Also available:
  - Mylar® Expandable Braided Sleeving
  - Reflex® Reflective Sleeving

Bentley-Harris Expando® PT Plus

KW: bh-sle

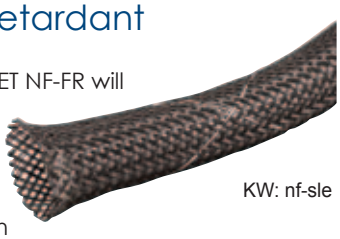
- Excellent cut-through and abrasion resistance
- Operating temperature ranges from -103°F to 257°F (-70°C to 125°C)
- Tough, lightweight oversleeves protect cable assemblies, hoses, and wire harnesses from chafing, cutting and abrading
- Open-weave construction of Expando products enables each size to expand to fit several application shapes and sizes

Nylon® Expandable Braided Sleeving

KW: ne-sle

- Lightweight and flexible for ultimate protection
- Sleeving expands up to 150% to fit over most connectors
- Operates in temperatures from -45°F to 302°F
- Resists automotive fluids to keep engines safe
- Cut & abrasion resistant to protect hoses from excessive wear
- From $0.23 per foot and volume pricing available

Non-Fray Flame Retardant



KW: nf-sle

Under normal conditions, PET NF-FR will quickly self-extinguish and minimize flame spread and incidental damage to surrounding components. Great solution for many industrial and engineering applications.

- Scissor cut for easy installation
- MIL-202, FAR 25 VW-1, FR-1 approved
- Cut and abrasion resistant
- Expands for ease of installation
- Halogen free
- Temp range -103°F to 257°F; melt temp. 482°F
- Volume pricing available

F6 Braided Wrap-Around Flame Retardant Sleeving

KW: f6-sle

- Complies with UL standard VW-1
- Prevents flame spread in a variety of applications, from aircraft wiring to concert lighting
- Self-extinguishing
- Split for easy installation. No endless sliding, just wrap around!
- Volume pricing available

Bentley-Harris Expando® FR Plus

KW: bh-fr

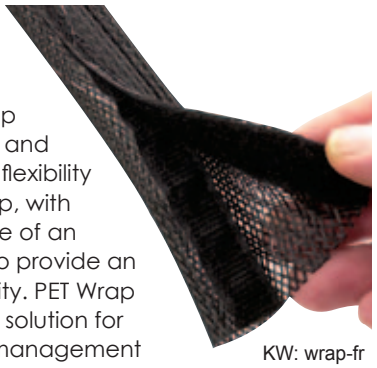
- Rated to 257°F (125°C)
- Low temperature flexibility to -94°F
- VW-1; FAR Part 25; CSA File #LR52852
- UL recognized component
- Does not trap heat or humidity
- Rot-free
- Self-fitting over many shapes and sizes
- Cost effective
- Fray resistant

Bentley-Harris Roundit® 2000 NX Nomex Sleeve

KW: bh-2000nx

- Woven blend of PPS (Polyphenylene Sulfide) and Nomex
- Rated to 392°F (200°C)
- FAR Part 25
- Halogen free
- Operating Temperature -76°F to 392°F
- Ideal for reworking components without disconnecting them
- Easy to apply and remove

PET Wrap Flame Retardant (FR)



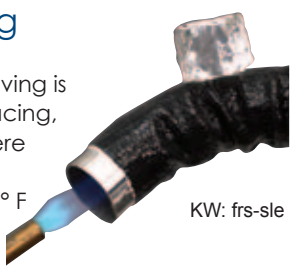
KW: wrap-fr

Flame retardant PET wrap provides the same hook and loop wire management flexibility as our standard PET Wrap, with the added safety feature of an organic flame inhibitor to provide an additional level of security. PET Wrap FR is a safe, economical solution for a wide range of cable management applications where moderate levels of flame protection are needed.

- Mil-202, VW-1, FR-1 approved
- RoHS compliant
- Cuts easily with a bench mount hot knife
- Cut and abrasion resistant
- Hook and loop closure for easy and repeatable access
- Temp range -103°F to 257°F (-75°C to 125°C)
- Melt temp 482°F (250°C)
- Volume pricing available

Nominal Size	Wall Thickness	Expansion	Abrasion Resistance	Color
¾", 1 ¼", 2"	⅛"	1-2	High	Black, Beige, White

Fire Resistant Sleeving



KW: frs-sle

Silicone jacketed fiberglass sleeving is the choice of professionals in racing, mining and other industries where heat protection from constant temperatures approaching 500° F is mandatory.

- Continuously protects cables, wires, and hoses to 500° F
- Available in (2) types:
  - Aerospace grade (braided)
  - Industrial grade (knit)
- High abrasion resistance
- Cuts easily with scissors
- Easy to install
- Will withstand molten splash at 2200°F

Fiberglass Braided Sleeving

KW: hw-fbs

Fiberglass (FG) sleeving is composed of tightly braided, highly flexible, continuous filament E glass, which has been heat-treated to remove starches and oils and "set" the braid. FG maintains about half of its strength at temperatures up to 1382°F, and is available in natural, black, tan, red or yellow. Saturated Fiberglass (FGS) sleeving is made in a similar fashion as the FG, except after heat treatment, it is saturated with acrylic resin formulated to provide excellent fray resistance when cut. The resin also stabilizes the fibers, which reduces operator skin irritation. Although the acrylic resin degrades at operating temperatures above 392°F, FGS continues to provide thermal and space factor insulation as high as 1202°F, with a continuous operating temperature of 842°F.

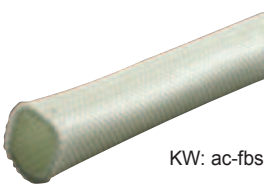
- Thermal Class 464°F (240°C)
- UL VW-1
- Dielectric grade C-3 (no dielectric guaranteed)
- Resists solvents and engine fluids
- 1:1.25 expansion ratio

APPLICATIONS

Heating appliances and lighting fixtures, when additional mechanical protection is required and space factor insulation is sufficient. Will withstand use temperatures as high as 1202°F (650°C).

Part #	Nema Grade	UL	CSA	Temp. Class °C
SPFG	C3	E86619	094072	240

Acrylic Coated Fiberglass Sleeving



KW: ac-fbs

Composed of modified acrylic resin that has been continuously coated over premium electrical grade braided fiberglass sleeving. With excellent flexibility and resistance to mechanical abrasion, this material is fully compatible with all magnet and wire coatings, as well as insulating varnishes such as polyesters, epoxies, phenolics, and Formvar.

- 311°F (155°C) temperature rating
- Resists solvents and engine fluids
- Lightweight and flexible
- Cuts easily with scissors
- High abrasion resistance

Thermashield Tube

KW: therm-tb

THERMASHIELD (TS) creates a buffer between your wires, hoses and cables and the high temperature environments they are required to perform in. TS is engineered by laminating an aluminum heat shield to a layer of strong fiberglass insulation.

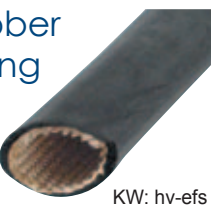
- Used specially for equipment that needs to be run in extremely high temperatures
- Thermashield withstands temperatures up to 626°F (330°C) without burning, melting or delaminating
- Resists gasoline, engine chemicals, salt water & UV light
- Insulates and creates a thermal buffer between delicate wires and hoses
- Bulk pricing available

Kevlar® (KV) Expandable Braided Sleeving

KW: kv-fbs

- Good chemical resistance
- Will not melt or support combustion
- Retains properties in extreme high and low temperatures
- Up to (20) times stronger than steel
- Extreme operating temperature of -340°F to 320°F
- Stays soft, flexible and pliable
- Excellent abrasion resistance
- Thermally stable

High Voltage Silicone Rubber Extruded Fiberglass Sleeving



KW: hv-efs

Thermal:

- Rated Class H by IEEE standards
- Acceptable for continuous service from -94°F to 392°F (-70°C to 200°C). Operation at temperatures up to 599°F (315°C) is tolerated for short durations
- Exceeds the requirements of UL Subject 224 for 392°F (200°C), 600 Volt operation
- Exceeds the requirements of MIL-I-3190 and ASTM D372

Insultherm Spark Plug Boot Insulators

KW: is-boot

- Economical, long lasting protection
- Resists oil and engine fluids
- Easy slip-on installation
- Protects up to 1,200°F
- Halogen and asbestos free
- Resists gasoline and engine chemicals
- RoHS compliant
- From $13.99

Heavy Wall (HW) Heavy Duty Sleeving

Heavy Wall (HW) grade is commonly used in industrial and outdoor applications where extreme abrasion resistance and long term economy are the requirements.

KW: hw-hds

- High tensile strength
- Lightweight and flexible
- High chemical and abrasion resistance
- Woven of monofilament that is 50% thicker than standard PET yarn
- Best choice for protecting cables and hoses that are in continuous contact with rough surfaces
- Volume pricing available

Gorilla Braided Heavy Duty Sleeving

KW: gor-hds

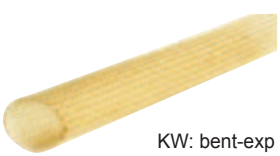
- Made of flat nylon filament
- Heavy plastic protection
- High tensile strength, yet lightweight and flexible
- Cuts easily with a hot knife
- High chemical and high abrasion resistance
- UV resistant with an operating temp of -103°F to 257°F
- Conforms to MIL-E-5272 rot and fungus standard
- Volume pricing available

Nomex® Braided Sleeving

KW: nom-bs

- Soft, pliable, and strong
- Cut and abrasion resistant
- Protects up to 700°F (371°C)
- Halogen and asbestos free
- Resists gasoline and engine chemicals
- Tensile strength of 90,000 psi
- Made of the same material used in flame-resistant clothing
- Volume pricing available

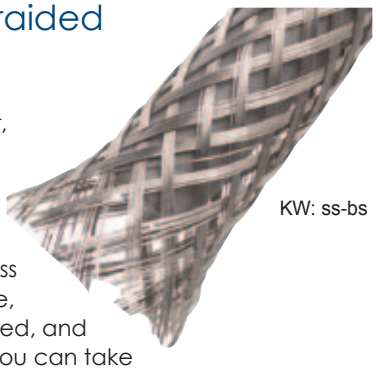
Bentley-Harris Expando® 686DM



KW: bent-exp

- Rated to 392°F (200°C)
- VW-1 sizes over ⅛", FAR Part 25
- Low temperature flexibility to -94°F (-70°C)
- Halogen-free
- UL Recognized Component for sizes over ⅛"
- CSA File #LR52852
- Low toxicity, smoke generation and off-gassing
- Volume pricing available

Stainless Steel Braided Sleeving



KW: ss-bs

Protect hoses from wear, corrosion and blowouts with our stainless steel braided sleeving. Custom hoses overbraided with stainless steel are quite expensive, selections are often limited, and delivery times lengthy. You can take any standard or custom hose, slip our stainless steel braid over it, hide the cut ends under your clamps and achieve the same look and protection as custom overbraided hoses for a fraction of the cost.

Our pre-rounded stainless steel sleeving is easy to install and comes in diameters and expansion ranges to accommodate almost any hose or wire application. Great for expansion joints where constant movement and high temperatures require a flexible, indestructible covering.

- Superior abrasion, chemical, and UV resistance make it great for outdoor applications (Fiber, RG6, CAT5e)
- Great for expansion joints where constant movement makes a flexible and indestructible covering necessary
- Won't rust or discolor, so the appearance will never fade or change
- Tubular braid that is also expandable for easy wire or hose installation on motorcycles
- Extremely high melt temperature 2650°F (1450°C) will protect wires and hoses within automobiles
- It can be cut with serrated scissors or shears to your desired length
- Made of virtually indestructible 304 Stainless Steel
- Very high abrasion resistance
- Braided from 0.01" diameter monofilament
- From $3.50 per foot and volume pricing available

Duraflex®

Duraflex® is our solution to the challenge of constant, repetitive and extreme abrasion. The flexible sleeve is tightly woven from military grade Nylon/cotton hybrid yarns and is impregnated with Kevlar® polymers to increase abrasion and flame resistance.

KW: dr-flex

- Prevents damage from UV radiation, gasoline, engine chemicals and salt
- Resists cuts, abrasion and penetration
- No damage after 100,000 abrasion cycles
- 0.09" wall thickness resists snagging
- Deflects high pressure hose ruptures
- Volume pricing available

PET Wrap Braided Sleeving

PET Wrap provides the perfect solution to many different applications. It's a lightweight, flexible braided sleeving that enables easy on and off installation, and provides instant and convenient access for harness break-outs and the reworking of specific sections of cable, wire and hose assemblies. Made from durable, high temperature resistant 0.01" polyethylene terephthalate monofilament, PET wrap is a premium-grade sleeving. The open weave hook and loop design conforms to a variety of bundle diameters and irregular shapes.

KW: pet-bs

- Available in PET and PET Wrap Flame Retardant (FR)
- Monofilament size: 0.01"
- Continuous operating temp.: -103°F to 257°F (-75°C to 125°C)
- Melt temp: 446°F (230°C)
- Retains properties in extreme high and low temperatures
- 2:1 expansion ratio
- Cuts easily with a bench mount hot knife
- High abrasion resistance
- UV light, chemical and moisture resistant
- RoHS compliant
- 100% Nylon hook and loop has a long life and excellent shear strength
- From $2.50 per foot and volume pricing available

Nominal Size	Wall Thickness	Expansion	Abrasion Resistance	Color
¾", 1 ¼", 2"	1/40"	1-2	High	Black, Beige, White

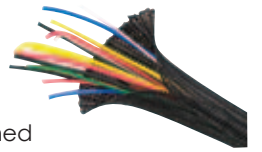
Roundit® 2000 Woven Wrap-Around Sleeving

The self-wrapping feature of Roundit 2000 allows for quick and easy application and removal of the product for assembly and maintenance. It is ideal for cables and lines that are already in place and hard to remove for conventional cable protective solutions, such as automotive applications (engine compartments) or multi-cable strings on or under your desk.

KW: rd-wrap

- Made of polyester mono and multi-filaments
- Rated 257°F (125°C); RoHS compliant
- From $1.25 per foot and volume pricing available

F6® Woven Wrap-Around Braided Sleeving



F6 Woven Wrap will bend to a tight radius without puckering or splitting open. 25% overlap in wrap is designed to keep wires completely covered. Great on home theater cables, computer or gaming system components, and even on small equipment hosing

KW: f6-abs

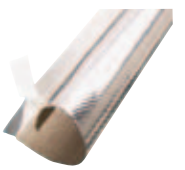
- Features a lateral split for installation of grouped or bundled cables
- F6 Woven Wrap will bend to a tight radius without puckering or splitting open
- 25% overlap in wrap is designed to keep wires completely covered
- Volume pricing available

Dura Wrap

KW: dur-wrap

- Tightly woven ballistic nylon construction
- Heavy duty, oversize hook & loop closure
- Resistant to engine chemicals and salt water
- Water, gasoline, and UV resistant
- High abrasion resistance
- RoHS compliant
- Volume pricing available

Thermashield Wrap (TSW)

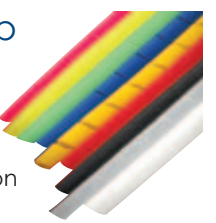


KW: th-wrap

- Provides maximum protection even around odd shaped connectors
- Reflects heat
- Designed to fit securely around existing assemblies and hard to reach components.
- Resistant to engine chemicals and gasoline
- Volume pricing available

Temp. Range	Softening Point	Melt Point
-60°C -255°C	846°C	1120°C

Spiral Wrap and Wire Wrap



KW: sw-wr

- Made of thick polyethylene plastic which not only prevents abrasion, but will keep pets away from wires
- Available in (6) standard and (3) neon (UV reactive) colors to match décor
- Allows breakouts for rerouting of cables
- Sold by the foot to suit any job, or in spools of 100' for larger projects
- Easily bundles and protects one or more cables
- Volume pricing available

Halar® Expandable Sleeving

Halar® (HR) expandable sleeving is commonly used where flammability, high temperature endurance and low outgassing are concerns. Also referred to as self-extinguishing, Halar® is used in plenum rated applications.

KW: hal-es

- Continuous temperature rating 302°F (150°C)
- Monofilament size: 0.011"
- Chemically inert, thermally stable
- Plenum rated UL 2024 (formerly UL 910) and NFPA 262
- Volume pricing available

Thermo-Flex Plug Wire Heat Shields

KW: tfp-whs

- Deflects up to 90% of radiant engine heat from your spark plug wires and boots
- Made of a strong but lightweight aluminum/silica/ stainless steel composite
- Withstands extreme temperatures up to 750°F (398°C)
- Centering grommet gives added protection by preventing wire from contacting the heat shield
- Easy to install – just use scissors to slit grommet, then slide over wire

Silicone Rubber Extruded Fiberglass Sleeving

KW: sre-fs

- Rated Class H by IEEE standards
- NEMA: TF-1, Type 5 Thermal: Thermal Class 392°F (200°C)
- Acceptable for continuous service from -94°F to 392°F (-70°C to 200°C). Operation at temperatures up to 599°F (315°C) is tolerated for short durations
- Exceeds the requirements of UL Subject 224 for 392°F (200°C), 600 Volt operation
- Volume pricing available

Nylon® Multifilament Braided Sleeving

KW: nyl-mbs

- UV resistant
- Lightweight and flexible, yet cuts easily with hot knife or scissors
- Resists automotive fluids and offers excellent abrasion resistance
- Operating Temp. -49°F to 248°F (45°C to 120°C)
- Melt Temp. 482°F (250°C)
- Excellent for sound and rattle control
- Volume pricing available

Ryton® Expandable Braided Sleeving

Ryton® (RY) expandable sleeving is used in high temperature, flame resistant wire harnesses and cable assemblies. RY is an extremely lightweight sleeving, resistant to high temperatures and virtually impervious to solvents.

KW: ryt-ebs

RY is braided from 8 mil flame resistant Polyphenylene Sulfide (PPS) monofilament fibers. PPS offers the broadest resistance to chemicals of any advanced engineering plastic. The material has no known solvents below 392°F (200°C) and is inert to steam, strong bases, fuels and acids. PPS exhibits minimal moisture absorption and a very low coefficient of linear thermal expansion.

- PPS - Polyphenylene Sulfide high temperature thermoplastic monofilament
- Monofilament size: 0.008"
- Melt temp: 545°F (285°C)
- Temperature range: -94°F to 392°F (-70°C to 200°C)
- Flame retardant VW-1, long term thermally stable
- Retains properties despite extremely high temperatures
- Oxygen index: 46%
- RoHS compliant
- Extremely lightweight, durable and flexible
- Cuts easily with a hot knife
- Volume pricing available

APPLICATIONS

Aerospace, telecom, and military

Teflon® (TF) Expandable Braided Sleeving

Teflon® (TF) expandable sleeving is ideal for applications in which resistance to flame, chemicals and high temperatures is a significant consideration. The high temp properties of TF make it the perfect choice for aerospace, military, high-tech and plenum applications where thermal stability and low outgassing are critical.

KW: tef-ebs

- Monofilament size: 0.016"
- Excellent chemical resistance
- Chemically inert , thermally stable
- Volume pricing available

For everyday cable taming around the house or at the office, CableOrganizer.com presents a line of cable ties, wraps, clips and adhesives that are effective, easy to use, and take up very little space in a toolbox or drawer. In this section, we offer everything you need to shorten excess cord length, bundle wires together, and clip unruly cables up and out of the way.

For additional cable wrap, clip and hook products, visit us at:
http://cableorganizer.com/cableties-wrap-clips/
or call us toll-free 24/7 at 1-866-222-0030

To simplify shopping online at http://cableorganizer.com, just type any product's KW (keyword) code into our Search, and you'll receive instant access to full product details, specs, photos and pricing.

Cable Turtle Organizer

Do you ever have the situation where you have a 6' cord when all you need is a 1' cord? With a turn of the hand, wind the excess wire around the open Cable Turtle. Close the shell and all wires are out of sight.

KW: cab-tur

- Cable Turtle is designed to handle a 1000W load
- Perfect, indispensable solution for handling long electrical cords
- Mini, small and large sizes for all of your wire management needs
- Durable, easily portable, fits multiple cable sizes
- Simple, no installation, just wrap around and snap shut
- No crosstalk when you wind it loosely
- From $4.99

	Diameter	Height
Mini Turtle	1 ¾"	⅞"
Small Turtle	2 ½"	1 ¼"
Large Turtle	3 ½"	1 ¾"

The **mini cable turtle** holds around 2.3' of electrical flex or cabling.
The **small cable turtle** organizer holds about 5.5' of US two prong wire.
The **large cable turtle** organizer can hold about 3 cords, or longer lengths of single cable.

Cable Winder

The Cable Winder brings order to cable clutter or tangled cords behind your workstation. It also protects and keeps the cables from dust and stains.

KW: cab-wind

- Takes only seconds to use: just insert cable into top slot and twist
- Neatly coils excess cable length inside a compact 2.75" x 2.75" x 0.85" plastic case
- Keeps wound-up cables clean and dust-free
- Sits on your desktop, or adheres to vertical surfaces with included 3M adhesive
- Small and very lightweight - perfect for business travelers and on-the-go students
- Price $2.49

Cable Manager

- Rubber coating grips cords and protects against damage at the same time
- Flexible design conforms to fit many different cable bundle sizes
- Installs and removes in seconds
- Keeps its spiral shape no matter how many times you wrap and unwrap it
- Perfect for people who constantly need to switch cables - changes are fast and easy
- From $8.49 and volume pricing available

KW: cab-man

Cord Caddy™ Organizational System

- Cord Caddy is needed in every home, office, and workplace
- Wraps cords around hooks to neatly organize unsightly cable clutter
- Holds multiple cords simultaneously
- Keeps floor or work surface clear of loose cords
- Reduces dust buildup around cords
- From $19.99

KW: cd-cad

Cable Snake™

- Rugged outdoor-grade fabric protects cables from abrasion
- Hook and loop fastener makes it easy to add or remove cables
- 1-yard length is ideal for spanning the distance between desktop computer/ peripherals and under-desk power distribution units
- Perfect for use in the office, or with home theater and stereo equipment
- From $9.99

KW: cab-snk

Mounted Head Cable Ties

Our mounted-head nylon cable tie is a weather resistant grade that endures ultraviolet (UV) light. This grade is produced by incorporating stabilizers into the nylon resin. UV Stabilized Nylon cable ties are available only in black.

KW: mh-ct

- Bundling and mounting accomplished with one product
- Used to secure a cable bundle to another surface such as a communication rack, wall or ceiling
- UV black stabilized nylon 6/6 can be used in continuous or extended exposure to outdoor sunlight
- Compatible with #10 screws
- Volume pricing available

Releasable Cable Ties

- Smooth, rounded edges do not cut insulation or hands, and are comfortable to work with
- Closely spaced positive-locking teeth allow fine adjustment to tie bundles of all sizes
- Self-locking, one-piece, low-profile head conserves space
- Volume pricing available

KW: rel-ct

PANDUIT® Pan-Ty® Marker & Flag Ties

- Used to fasten and identify bundles all at the same time
- One-piece construction for consistent performance and reliability
- Flame retardant nylon material has a flammability rating of UL 94V-0 for indoor use
- Curved tip is easy to pick up from flat surfaces and allows faster initial threading to speed installation
- Volume pricing available

KW: pan-flag

Thomas & Betts Ergonomic Ty-Rap® Tools

- Lightweight and ergonomic design reduces hand strain
- Adjustable tension settings for use with a variety of cable ties
- Automatic cutting for one step application
- 360° rotating nose allows you to use the tool in any position
- From $217.43

KW: tb-tyr

Cable Ties - Nylon 6/6 General Purpose

Cable ties are a secure, convenient and inexpensive single-use solution to handle your general wire management needs.

KW: gen-ct

General purpose Nylon 6/6 is suitable for use in most practical applications at a continuous temperature up to 150°F. Nylon 6/6, the grade most often used for cable tie production, meets UL 94V-2 flammability ratings. Its working temperature range is from 40°F to 185°F.

- Smooth, rounded edges do not cut insulation or hands, and are comfortable to work with
- Closely spaced positive-locking teeth allow fine adjustment to tie bundles of all sizes
- No metal parts; head and pawl are integrally molded for added strength and durability
- Self-locking, one-piece, low-profile head conserves space
- V-shaped raised ridges on bent tip give a sure grip and easy pull-up
- A bent tip makes for easier pickup, insertion and tensioning
- Volume pricing available

Small Cable Tie Kit includes:	Large Cable Tie Kit includes:
(100) 4" Red	(100) 4" Red
(100) 4" Green	(100) 4" Yellow
(100) 4" Yellow	(100) 4" Blue
(100) 4" Blue	(100) 11 ½" Natural
(100) 4" Natural	(200) 4" Black
(100) 8" Natural	(200) 4" Natural
	(400) 8" Natural

Hellermann Tyton® Stainless Steel Cable Ties

Stainless steel cable ties are designed to secure cables, wires, hoses, poles, pipes and more in harsh environmental conditions.

KW: ss-ct

- Grade 304 and Grade 316 Stainless Steel suit most general purpose applications and withstand most environmental conditions
- Grade 316 Stainless steel is highly resistant to corrosion, and is widely used in marine environments where chemicals, salts, acids, and extreme temperatures may affect the bundling application
- Flame retardant and non-toxic
- Volume pricing available

3M Innovation™ Cord Bundler with Command™ Adhesive

3m-cbca

With a flexible rubber strap that folds up and locks into place on a wall-mountable plate, the Cord Bundler creates a loop that's capable of holding multiple electrical cords and cables. Thanks to 3M's innovative Command™ silicone adhesive strips, the reusable Cord Bundler can be hung and removed over and over again without causing damage to wall surfaces. This cable manager adheres to just about any flat surface – including drywall, plaster, glass, tile, painted cinder block, and stained or varnished wood – and removes cleanly, leaving no damage or sticky residue behind. Each pack includes (2) Cord Bundlers.

- Each bundler holds up to 2 lbs (1 kg)
- Approximate bundle size per Cord Bundler: 1" diameter
- Works with Command™ Adhesive Medium replacement strips
- 3M cord bundler anchors cords, cables and wires neatly along surfaces and out of the way
- Holds on strongly
- Comes off cleanly
- No surface damage or residue
- Damaged data cables are a thing of the past
- Reusable and environmentally friendly, no more throwing away nylon cable ties.
- Keep grouped runs organized and separated from each other
- From $3.99 and volume pricing available

Cable Clamp®

KW: cb-clamp

This innovative and easy-to-use cord management and organizational tool is superior to tape, cable ties, and hook & loop products. Currently available in (4) convenient sizes (small, medium, large, and mega), they are designed to accommodate a wide array of applications.

- Adjustable jaws enclose cables and keep them securely bundled
- Easy open and close for one-hand operation
- Features self-aligning, self-adjusting, and self-locking technology
- From $1.60 and volume pricing available

Kurly Lock with Adhesive Base

KW: kl-ab

Use the Richco® Kurly Lock with Adhesive Base to hold wires and cables by twisting its top ends together. The bundles can be easily locked into place or removed.

- Adhesive backing makes these perfect for routing cables against walls
- Smooth, rounded edges prevent abrasion to cables and fingers
- Curved ends lock around each other to secure cables, but are easily reopened for cable updates
- UL approved for safety
- Volume pricing available

Twist Lock

KW: tw-lk

- Keeps cable bundles secure with only a twist
- Can be repeatedly opened and closed so wires can be added or removed
- Rounded edges won't damage cable insulation or skin
- Made of extruded, natural-color Nylon 6/6
- UL Listed
- Volume pricing available

Wire Clips

KW: wr-clp

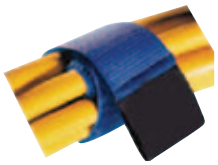
- Lets you organize and route wires just about any way you want to
- Adhesive backing sticks firmly to walls, furniture, and equipment
- Latching design lets you repeatedly open and close clips to change cables
- Easy, "entry-level" solution; a great option for anyone who's tackling their first cable management project
- From $3.50

BELKIN Cable Clips

KW: belk-clp

- ID labels help identify each cable
- Keeps cables untangled and helps prevent unwanted accidents
- Holds up to twelve cables or cords
- Package includes:
  - (2) Corner-mount cable channels
  - (2) Bundler clips
  - (6) Routing clips
  - (12) ID labels
- From $8.88

Cable Wrap



Cable wrap installs in seconds and features a handy pull-tab release that allows you to rearrange cable groupings with ease, so you can keep cords safely out of the way.

KW: cab-wp

- Versatility: organize cables in just about any setting
- One end stays attached to cable, while the hook-and-loop end is equipped with a convenient pull-free tab
- Environmentally friendly - eliminates the waste caused by single-use cable ties
- Durable, made of the best quality hook and loop touch fastener...tested for 10,000 closures with no loss of holding strength
- From $2.95 and volume pricing available

Closed-Loop Hook and Loop Fastener

KW: cl-hlf

- Closed center loop custom-conforms to any cable end, and stays securely in place until you decide to remove it
- 7" length is perfect for smaller to mid-size cable bundles
- To use, just secure cable end in center loop, coil cable up, then close the wrap's ends around the bundle
- Volume pricing available

Perforated RipWrap™

KW: perf-rip

- ½" wide, 45 pieces per roll (other widths and continuous lengths available upon request)
- Available in perforated rolls for quick and easy dispensing
- (5) different colors - black, blue, white, yellow or orange.
- Other colors available - call for information
- 2" overlap yields 3.0 psi shear strength
- Volume pricing available

Heavy Duty CinchStrap-EG™

KW: hd-cinch

- Mounts to walls, racks, and mobile carts to organize and neatly route cable runs
- Prevents attenuation by reducing gravity and weight-induced cable stress
- Durable hook and loop doesn't quit: reorganize, add, or remove cables up to 10,000 times
- From $4.49 and volume pricing available

VELCRO® brand ONE-WRAP® Wire Wrap

KW: vel-one

Patented VELCRO® One Wrap® self-gripping fasteners offer a neat and secure fastening system that is both adjustable and reusable. These unique back-to-back fasteners can be cycled (open and closed) hundreds of times. VELCRO® cord and cable tie wraps are available in a variety of strap lengths, widths, and colors, and One Wrap® brand fasteners can be designed to meet your needs with custom packaging options. The VELCRO® One Wrap® is made of Polyethylene hooks laminated to a nylon loop.

- Easy to install - just snug around cables or fiber optics and touch one side of the strap (the "hook" side) to the other (the "loop" side) - no buckles or snaps to get in the way
- No tools or training needed
- Reusable - simply peel hook and loop sides apart with your hands
- Infinitely adjustable - secure closure every time
- Eliminates the potential for damage to fiber optics or cables caused by over-cinching or accidental cutting
- Weatherproof, never rusts - interior and exterior use
- Volume pricing available

Also available in a **FLAME RETARDANT** version, it's ideal for:

- Controlling network cable and electrical floors
- Safe for use in plenum and other air-handling spaces
- Made of flame retardant polypropylene and nylon hook-and-loop
- Great for home, school or office
- Complies with NEC section 300-22
- Volume pricing available

CableHanger® Cable Routing Straps

KW: ch-crs

The CableHanger's® patented suspension design locks it firmly onto vertical posts, letting you mount cable bundles onto server racks and shelving without compromising the cables' integrity or data transmission.

- Makes it possible to run multiple cables parallel to each other, but still keeps them separate
- CableHanger® can be easily released and re-tied, so it's simple to add or remove cables
- Safe: made of plenum-rated black plastic
- Use with copper and fiber optic cables
- From $2.95 and volume pricing available

Cable Path™ Tape

KW: cp-tape

Cable Path Tape is a great solution for quickly and efficiently organizing your cables. The premium cloth tape is vinyl coated for superior durability and strength. There is a high performance cured rubber adhesive at both edges, while the tape's center is adhesive-free to easily accommodate your cables.

The smooth center portion is ideal for pulling cable and wire through and makes it easy to reposition cables as needed. The strong adhesive will hold firmly for extended periods of time on most smooth surfaces, and removes without a sticky residue.

- Adhesive strips only along the outer edges, leaving a clean, non-sticky center channel to route cables through
- Cured rubber adhesive grips smooth surfaces for extended periods of time, then pulls up without leaving a sticky residue behind
- Vinyl-coated fabric (12.5 mils) gaffers tape has low light reflectivity
- Hand-tearable for easy installation
- Makes it easy to reposition cables as needed
- A must-have for entertainment industry/sets, warehouses, trade shows, manufacturing facilities and retail spaces

TYPICAL VALUES	
Backing:	Premium cotton weave
Adhesive:	Cured rubber resin
Total thickness:	12.5 mils
Adhesion:	95 oz per inch (coated edges)
Tensile:	45 lbs per inch

E-Z Self-Adhesive Fire Tape

KW: ez-aft

Save time and money with our self adhesive E-Z fire tape for gypsum drywall board. E-Z Fire Tape has passed full scale tests for one-hour fire rated, vertically or horizontally hung wall systems, on both wood and steel stud construction with fire rated gypsum board.

- Permanent adhesion to drywall
- Easy mudless application with no cleanup or additional preparation
- Listed by ICC Evaluation Services and Warnock-Hersey
- From $24.28

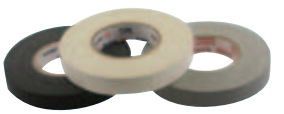
Loctite PowerGrab on a Roll

KW: lpg-roll

Loctite Power Grab on a Rolls incredibly strong adhesive allows you to adhere just about anything. Strong acrylic adhesive withstands high temperatures for outdoor use.

- Incredibly strong adhesive allows you to adhere just about anything
- Versatile heavy duty tape works for home or industrial
- Withstands temperatures from -40° F to 248° F
- Able to hold over 100 lbs/45 kg per roll
- Waterproof and UV light resistant
- Creates an ultra-strong permanent bond
- From $7.41

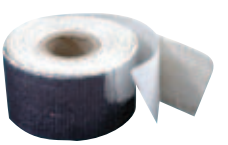
Permacel P-665 Gaffer's Tape



KW: perm-gt

- Matte finish: 12 mil vinyl-coated cloth tape does not promote light reflection
- Synthetic rubber adhesive holds fast but won't leave residue behind
- Perfect for splicing cables - seals out dirt and dust
- Tears by hand - eliminates the need for scissors or utility knives
- From $12.52

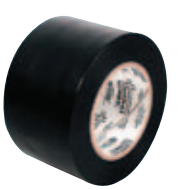
Thermo-Shield Tape



KW: thm-st

- Fiberglass-aluminum composite material reflects up to 90% of radiant heat
- Prevents rubber or plastic hoses and wiring components from melting, drying out, or cracking in the presence of extreme heat up to 2000°F (1093°C)
- Adhesive backing is perfect for splicing the ends of heat-shield tubing, or for wrapping pre-installed components that can't be easily disconnected
- From $19.99

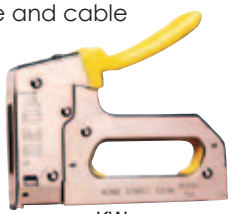
Tunnel Tape (Black)



KW: tun-tape

- No adhesive residue left on cables or cords – no cleanup required
- Tunnel tape is designed for use on the floor
- Tape can be repositioned several times
- Hand-tearable
- Puncture resistant
- Perfect for taping down wires and cables in convention centers, auditoriums, and TV studios
- From $15.95

Acme® Wire and Cable Staple Guns



KW: acme-gun

Acme Staple Company's unique wire and cable tackers and staples are ideal for the installation of wires and cables of all types. Each model accommodates multiple staple sizes for different wire installations such as coaxial, fire alarm cable, and Cat5 network cable. Each staple is made of galvanized or stainless steel (with or without coating) to accommodate just about any application.

- New design won't crush wires and cables
- Reduces installation time
- Ergonomic design with high-visibility handle
- Patented broadband stapling products
- From $35.69

Arrow® Fastener Staples

KW: arw-fs

- Different types of staples available to suit your project
- UL listed models will not crimp wires
- Rust proof staples available for longevity
- Narrow crown, compatible with many brands
- Use with cables up to 5⁄16" (0.8mm) in diameter
- Ideal for use with RG5/RG6 cable, CAT5/CAT6 cable
- Staples available for hardwood applications
- From $2.95

Arrow® GunSlinger™ Staple Gun Holder

KW: arw-sling

- Leaves you hands-free to work on other aspects of the job
- Easily attaches to any belt for carrying your staple gun
- Works with just about any brand of staple gun
- Unique design prevents gun from slipping out
- Convenient placement, right on your hip
- Ergonomic design allows a quick draw
- Price $2.99

CableCatch® Cable Management

KW: cbc-cm

- Pull tab releases quickly and easily, so changing cables is never a problem
- Gentle on cables, so performance and integrity are not affected
- Simple design allows for one-hand operation
- Just peel away backing and press: adhesive sticks permanently to flat, smooth surfaces
- Volume pricing available

Arrow® CT50 K™ Professional Cordless Staple Gun Kit

KW: ct50

Arrow introduces the CT50 K™ Professional Cordless Staple Gun Kit, a revolutionary heavy-duty tool designed specifically to withstand the most rugged demands out in the field. This incredible tool makes attaching cabling to wall, beams, and baseboards a breeze. Featuring a revolutionary new ergonomic design that eliminates the most difficult part to work around (the power cord), this tool makes a great addition to anyone's shed or toolbox.

- No power or extension cord to drag around makes jobs easier
- Long lasting battery, up to (1500) staples on a single charge
- Unique design with ergonomic handling saves time
- Advanced 10.8 Volt lithium ion battery technology
- Holds (2) full rows of T50 staples
- Battery contains an easy to read LED charge meter
- Easy view staple supply window
- Quick release battery and staple pusher
- Staple exit guide for accuracy
- LED guide light for hard to see spots
- 60 minute battery charger
- Kit contents:
  - Staple gun
  - Case
  - Battery
  - Charger
- From $136.09

Arrow® Insulated Staple Wire Tackers

KW: arw-swt

Arrow Wire Tackers are ideal for use with RG5/RG6 coax, CAT5 and various other types of cabling. The all steel construction of these staplers ensures that they will last use after use.

- Steel body improves durability
- Uses patented jam-proof mechanism
- Grooved guide ensures perfect stapling
- Short span easy compression increases work speed
- Great-looking chrome finish
- Removable wire guide for easier stapling
- Easy squeeze double leverage for simple operation
- From $49.64

At CableOrganizer, our offerings don't end with wire management. From conduit and wallplates to circuit testers and fuses, we carry a full array of electrical supplies as well, by leading manufacturers like Leviton, PANDUIT, Arlington, Ideal and Cooper Bussman.

To help you stay green and save money, you'll also find energy-saving items like motion-sensing light switches and Kill A Watt™ power meters among our line of electrical supplies. We hope you'll enjoy the savings.

For additional electrical products, visit us at:
http://cableorganizer.com/electrical/
or call us toll-free 24/7 at 1-866-222-0030

To simplify shopping online at http://cableorganizer.com, just type any product's KW (keyword) code into our Search, and you'll receive instant access to full product details, specs, photos and pricing.

Wall Plates

Electrical outlets, light switches, data ports, telephone jacks, A/V connections – if you can name it, CableOrganizer has the wallplate for it. We're proud to carry the most sought-after wall and face plate lines by the electrical industry's top brands, including:

- Leviton Acenti®, Decora®, and QuickPort® wallplates for switches, receptacles and phone/data jacks
- PANDUIT® Mini-Com® faceplates and surface-mount boxes
- SCOOP™ reversible entrance wallplates and Dri-Box® weatherproof outlet covers from Arlington Industries
- Lectralock™ lockable commercial and childproof outlet covers
- HDMI, DVI and multimedia A/V wallplates from Leviton, Vanco, Black Box, Arlington Industries, Altinex, and RapidRun™
- Keystone wallplates from Wiremold-Ortronics, PANDUIT®, and Leviton

KW: wall-p

Arlington Industries InBox™ Retrofit Electrical Box

KW: a-ib

The InBox™ electrical box comes packaged complete with a weatherproof-in-use cover, installed bug plugs, (1) standard duplex and (1) GFCI face plate, installation screws, (1) roll of caulk and NM cable connector. In addition to being used with standard flat surfaces, you can use the profile adapters sold separately to accommodate different lap sizes.

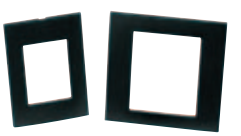
- Non-metallic, 22 cubic inch, weatherproof, recessed, al-in-one retrofit electrical box with cover
- No extra parts to purchase or carry on jobs, which means you save time, effort and money

Low Voltage Mounting Brackets - Existing Construction

KW: lv-brack

- Comes in optional single and double gang design
- Standard size for many different wiring options
- Versatile mounting, vertically or horizontally
- Fits from ¼" to 1" drywall or paneling
- "Wing" feature for extra firm hold

Leviton Acenti Wallplates



KW: la-plate

- Screwless snap-on design for a clean, finished look
- All Acenti devices including receptacles, dimmers, or switches are made to fit perfectly with the Acenti wall plate
- (7) colors to choose from: alabaster, natural, quartz, slate, onyx, driftwood and sand
- Made from engineered polymer for a matte finish and consistent color every time

Decora® Manual ON Occupancy Sensor

KW: dec-sensor

- Installs in place of single wall switch or 3-Way switch installation
- Complies with California Title 24 Residential Lighting Standards to meet code and reduce energy cost
- If you forget to turn the lights off, they will turn off automatically if motion is not detected
- Can be used in many residential applications, including (but not limited to) bedrooms, garages, living/family rooms, kitchens and basements...

IDEAL 61-165 SureTest® Circuit Analyzer

The SureTest circuit's patented technology enables the user to effectively see behind walls and panels to look for and identify wiring problems that can cause electric shock hazards, electrical fires, or poor appliance operation.

KW: 61-165

- Identify false (bootleg) ground/earth connections
- Test Ground Fault Circuit Interrupters (GFCIs) and Equipment Protective Devices (EPDs) for correct operational use
- Tests safely, without disturbing sensitive loads
- Price $277.91

Flexible Steel Conduit

KW: flex-sc

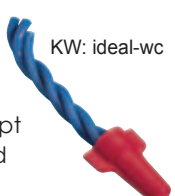
- Smooth interior for easy wire pulling
- UL Listed
- Able to withstand high temperatures
- Durable crush-proof construction
- Corrosion and rust resistant
- Manufactured from a spiral-wound strip of hot-dipped galvanized steel

Cooper Bussman LP-CC LOW-PEAK Yellow™ Fuse

KW: cb-fuse

- These are 600 Volts AC , 0 - 30 Amp, time-delay, Class CC fuses
- Fast response time to protect from potential damaging short-circuit currents
- Higher interrupting rating than mechanical overcurrent protective devices, for a greater measure of safety
- From $17.24

IDEAL Wing-Nut® 452® Wire Connector



KW: ideal-wc

- These Wing Nut® wire connectors accept #18 to #8 AWG wire combinations, and are rated to 600 Volts
- A spring inside the shell prevents wire grip from slipping
- The thermoplastic shell is rated at UL 94V-2, which means that it's flame retardant and can be used for high-temperature applications.
- Volume pricing available

Kill A Watt

KW: kill-aw

Take control of your utility bill once and for all with Kill A Watt™, the electricity monitor that tells you exactly how much power each of your appliances consumes – and how much it's costing you. To test your home's electrical efficiency, simply plug any appliance (up to 15 Amps) into the Kill A Watt™, whose display will then show the device's power consumption in kilowatt-hours. Once you know which appliances are the biggest electricity guzzlers, you can make informed decisions on how often – and how long – to run them.

Kill A Watt™ is available in (3) models:

- The Kill A Watt™ Electricity Power Meter – measures and displays Kilowatt hours, Volts, Amps, Watts, Hz and VA with an accuracy within 0.2%.
- The Kill A Watt™ EZ Electricity Usage Monitor – works just like the regular Kill A Watt, but with the added bonus of a built-in battery backup, and the ability to calculate Power Factor, Elapsed Time, Rate, and Electricity Costs.
- The Kill A Watt™ PS Electricity Usage Monitoring Power Strip – all the benefits of the Kill A Watt™ EZ in an 8-outlet surge suppressor, so you can protect your electronics against power spikes while monitoring their electrical consumption.

Sniff-It 2

KW: sniff-2

The Sniff-It 2 AC Voltage Detector is an economical and compact way to check for AC voltage. The Sniff-It 2 is safe and easy to use, as it detects AC Voltage without making direct contact with live wires. The adjustable sensitivity variables (from 5 to 600 Volts AC) make this the perfect solution for just about any job.

- Detects AC voltage without making contact with wiring
- Visual and audible confirmation
- Detects breaks or faults in in-wall wiring
- Adjustable variable sensitivity
- Price $15.95

It doesn't matter if you're dealing with messy patch cords or cluttered storage shelves – the only way to really get organized is to get labeled. That's why CableOrganizer offers an extensive selection of label printers from Brother®, Dymo®, K-Sun, Brady, and Thomas & Betts that covers a wide range of applications, features and pricing.

For additional label printer products visit us at:

PANDUIT® PanTher™ LS8 and Cougar™ LS9 Label Makers

KW: ls89

PANDUIT® introduces the affordable LS handheld Thermal Printer line. The PanTher™ LS8 and Cougar™ LS9 are designed to meet and exceed the demands of the IT world, while printing the highest quality labels that are sure to last for a long time. The PanTher™ LS8 Model features computer connectivity through USB interface, for importing data and system upgrades, and printing labels from a wireless laptop or desktop computer.

- Rugged construction to meet the demanding requirements of electrical and network users
- Ability to print on a wide variety of label materials to fit your application needs
- Large graphic display maximizes label design area and options

Labels are provided in fast loading P1™ Label Cassettes, each of which contain an integrated memory device for automatic formatting, as well as recalling the last legend used and number of labels remaining in the cassette.

- Flexibility to choose individually cut labels, or a strip of tear-apart labels for quicker installation
- LS8 model features cut-to-length technology to avoid wasting labels
- Compact design makes it easy to hold in one hand while working
- From $144.23

Wire Marker Dispenser

KW: wm-dis

Each dispenser contains (10) rolls of marker tape, numbered 0 - 9. Each roll contains (76) individual markers with a pre-determined length of 1 ¼" and a width of ¼".

- Compact and convenient (can be hooked on a tool pouch or carried in a shirt pocket
- Reusable/refillable
- Pre-cut markers
- Tyvek material
- Acrylic adhesive
- Silicone release liner
- Multiple legends
- Price $15.99

Print-On Label Sheets

KW: pon-ls

- Convenient and easy to use
- Great for labeling cables in home or office
- Self-laminating
- Available for laser or inkjet printers, made of polyester material
- Dot Matrix available upon request
- Allows you to print in color
- From $19.99

Dymo® Organizer Express

KW: dy-oe

- Ergonomic design for easy labeling
- Intuitive "turn and click" labeling system
- 49-character wheel includes @ and "-"
- Cassette door (handle) has "soft touch" grip
- Durable ABS plastic construction for extra long life
- Easy-to-load cassette
- Price $12.99

Brother P-Touch 1290 Label Printer

KW: bro-1290

- Allows you to create quick, simple, and stylish labels for anything in your office or home
- Equipped with a 15-character LCD display screen for easy label viewing and editing
- Auto tape detection feature automatically detects label size and width for quick formatting

Brother P-Touch 7500 Label Printer

Equipped with a smart layout key and automatic tape-size detection, this rugged printer makes it fast and easy to switch between formats and applications in commercial and industrial labeling jobs.

KW: bro-7500

- Provides a portable solution to printing industrial-type barcodes and general labels for warehouses and offices
- Smart layout key prints eight layout designs for industrial applications
- Includes over 160 industrial symbols for quick and easy printing at the push of a button

Brady TLS 2200® Thermal Labeling System

- Thermal transfer printing technology for smear-free labels
- Built-in functions for wire and cable printing
- Lightweight and portable 2.75 lbs (1.25 kg)
- PC connectivity
- Memory for creating label lists and storing frequently used labels
- Prints about 500 labels per battery charge

KW: brad-tls

Thomas & Betts E-Z-Code® Series Label Printers

- EZL-100® prints on ½", ⅜" and ¾" size labels
- The E-Z-Code hard case kit includes a durable carrying case, (1) black-on-white ¾" flexible nylon label cassette, (1) ¾" black-on-white permanent polyester, impact-resistant bumper, (6) "AA" batteries, Instruction Manual, and AC adapter

KW: tb-ezc

Brady IDXPERT™ Labeling Printers

- Built-in functions for wire ID, patch panels, and serialization
- (82) Symbols and various barcode types built in
- Over (140) label combinations to choose from
- Uses die-cut labels and continuous tapes
- Auto-senses cartridge type & size
- Includes: Hard Carry Case, 1.5" x 30' continuous tape, PC cable (USB), and product CD with tutorial

KW: brad-expert

K-Sun® Green Machine Eco-Friendly Label Printer

Constructed partially of recycled materials and designed to create up to 58% more labels from each tape cartridge, this environmentally friendly labeler lets you print highly customized labels without wasting energy or supplies

KW: ks-green

- Prints on all LabelShop® Labels, including durable polyester and heat shrink; this printer is ideal for any application from wire labeling to household use
- Integrated corner cutter rounds the ends of labels, increasing durability and providing a much more professional look
- Made of Halogen-free materials to minimize release of toxins and resist heat
- Automatically powers off after 5 minutes of inactivity, minimizing energy costs and the inconvenience of constantly changing batteries
- MaxiLabel®Software allows you to import logos, databases, additional barcode formats and more from your PC, creating endless possibilities for custom labeling

Environmental and Safety Features

- All packaging and paper made from recycled materials
- Cartridges made of 50% recyclable material, and are recyclable through K-Sun
- Eco-Design Directives Compliant
- Printer contains no PVC, lead or mercury
- Ac adapter meets/exceeds Energy Star and California Code V energy reduction and efficiency standard

K-Sun Label Shop Bee3 Label Printer

This portable, compact keyboard printer creates custom adhesive-backed labels in over (60) different size and color combinations, as well as barcodes. Also prints on heat shrink materials for wire and cable identification.

KW: ks-b3

- Over (60) different size and color options available to customize your labeling project
- Prints on heat shrink labels for identifying wires and cables
- (6) Barcode formats for asset management
- Clear 12-character, 2-line LCD screen for easy visibility and preview of labels

RHINO ™6000 Professional Label Printer

KW: rh-60plt

- PC-connectivity. Fully compatible with RHINO CONNECT™ software (sold separately, item#1738636)
- "Hot Keys" instantly format cable wraps, patch panels, flags, fixed-length, serialized and other labels
- Includes 250+ pre-programmed industry terms and symbols
- Memory to save 1,000+ custom labels, including logos and graphics
- Features a large graphic display with backlight, one-touch powered cutter and cassette ejection system, automatic cassette recognition, and quick-charging lithium-ion rechargeable battery pack
- Prints on RHINO labels up to 1" wide

RHINO 6000 Professional Label Printer (1734519) Includes:

- RHINO 6000 Professional Label Printer
- One 1" Black on White Flexible Nylon Label Cartridge
- Lithium-ion quick-charge rechargeable battery pack
- AC adapter
- CD with Instruction Manual
- Quick Reference Guide
- Registration Card

RHINO 6000 Hard Case Kit (1734520) Includes:

- RHINO 6000 Printer
- RHINO CONNECT Software
- Hard Carry Case
- 1" Black on White Flexible Nylon Label Cartridge
- ⅜" Black on White Vinyl Label Cartridge
- Li-ion Rechargeable Battery Pack
- AC Adapter
- Quick Reference Guide
- Registration Card

RHINO M1011 Metal Tape Embosser

KW: rh-mtp

- Made of cast-aluminum for tough jobs and conditions (weather, temperature & corrosion)
- Imprints ½" (12mm) wide metal labels which are great for outdoor applications
- Built in cable tie slot and hole punching mechanism for hanging, tacking, or wire marking
- No batteries required

RHINO Metal Tape Embosser KIT Includes:

- 1 Metal embosser
- 1 Horizontal 0.188" Character Wheel
- Reverse wheel image for mirror image labels
- 1 Roll ½" x 12' non adhesive aluminum tape
- 1 Roll ½" x 16' non adhesive stainless steel tape
- 1 Hard carry case

To ensure that your cable penetrations are safe and up to code, CableOrganizer offers a line of intumescent caulks, foams, mortars, pillows, duct wraps and cable transits from 3M and Abesco. But it doesn't end with firestopping – to keep you alert to fire-related danger, we also provide fire alarm cable, as well as Kidde Interconnectable Smoke Alarms.

For additional fire protection products, visit us at:
http://cableorganizer.com/fire-protection/
or call us toll-free 24/7 at 1-866-222-0030

3M™ Fire Barrier 2000 Silicone Sealant

KW: 3m-ssfb

Ideal for sealing simple penetrations around metallic or glass pipes and conduits to control the spread of fire. Helps limit the spread of noxious gas, smoke and water. Maintains the integrity of fire-rated construction. The sealant is designed for use in fire-rated control and isolation joints.

- Great for top-of-wall/head-of-wall joints
- Superior adhesion
- Provides up to a 4-hour fire rating
- Cures upon exposure to atmospheric humidity
- Price $650.00

3M™ Fire Barrier Water Tight Sealant 1000 NS and 1003 SL

KW: 3m-fbwt

3M™ Fire Barrier Water Tight Sealant 1000 NS (non-slump) and 3M™ Fire Barrier Water Tight Sealant 1003 SL (self-leveling) are both ready-to-use, single-component silicone elastomers. Both cure upon exposure to atmospheric humidity to form a flexible seal. 3M™ Fire Barrier Water Tight Sealant 1000 NS and 1003 SL are used to firestop openings and penetrations through fire-rated floor slabs, walls, other building partitions and assemblies.

The 3M™ Fire Barrier Water Tight Sealant 1003 SL formulation is used in floor applications only. 3M™ Fire Barrier Water Tight Sealants, when properly installed, will help control the spread of fire, smoke and noxious gases. 3M™ Fire Barrier Water Tight Sealant 1000 NS and 1003 SL also meet the new UL Water Leakage Test, W Rating – Class 1 requirements for systems tested and listed in accordance with ANSI/UL 1479.

- Re-enterable/repairable, and excellent adhesion
- Excellent weatherability; cures upon exposure to atmospheric humidity
- Applied with standard or bulk caulking guns or pneumatic pumping equipment
- 15% compression and extension
- Color: Gray
- From $8.25

APPLICATIONS

Blank opening, metallic pipes, non-metallic pipes, cables, cables trays, insulated pipes, combos, interior construction joints.

Abesco CP310 Fire Rated Acrylic Intumescent Caulk

KW: ab-fra

- Fast cure, tack-free in 75 minutes
- Excellent adhesion to most building substrates
- Very easy to use, install and finish
- Excellent slump resistance
- Tested in accordance with ASTM E814, UL1479
- UL Classified 1 and 2 hour rating
- Red or white
- From $10.77

3M™ Fire Barrier Duct Wrap 15A

KW: 3m-ductfb

- Protects against both internal and external fire conditions
- Lightweight, flexible and easy to install
- Maintains the structural integrity of the duct
- Zero clearance to the overlap or collar for congested spaces
- Safer fiber construction
- Applications include commercial kitchen grease ducts, air ventilation, and chemical exhaust ducts

3M™ Fire Barrier CS-195+ Composite Sheet

KW: 3m-195cs

- Intumesces (expands with heat) to form a hard char that tightly seals penetrations against flame spread, smoke and toxic fumes
- Multiple applications...through penetration firestop, heat shield and firebreak protection
- Easy to install using common trade tools
- Volume pricing available

ABESCO® FP200 Fire Rated Expanding Foam

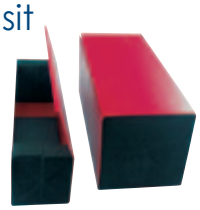
Abesco® FP200 is a fire rated polyurethane expanding foam designed to prevent the spread of fire and smoke from one compartment to another through gaps and voids in fire rated walls or floors.

- Meets following independent testing standards:
  - ASTM E-814 (UL 1479) – 2 hours fire resistance
  - BS EN 1366-3
  - BS476 part 20 – 4 hours fire resistance
  - AS1530.4

KW: abe-ref

- Provides an insulating seal to concrete, brick, wood, metal, aluminum & steel
- Price $23.45

Abesco CT 120 Cable Transit



KW: abe-ct120

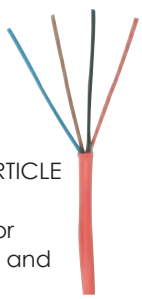
- Red color finish, 22 gauge steel, 10" length
- Three different size widths to choose from: 2.5" (65mm), 4" (102mm), 4" diameter round (102mm)
- Suitable for use in concrete floors and walls, drywall, and wooden floors
- May be joined together to form double or triple units using CT Mounting Flange Set (purchase separately)
- Pricing based on shape and size

Kidde Wireless Ionization Interconnectable Smoke Alarms

KW: kid-wless

- Wireless technology uses radio frequency to transmit and receive messages about hazard
- Unit quickly and easily mounts to your ceiling or wall with no wiring, so that you can install it alone
- Interconnected feature is factory programmed
- From $55.17

Fire Alarm Cable



KW: fc-ac

- Non-Plenum, Plenum and Shielded fire alarm cable for power-limited fire alarms, as well as communications cable for riser and non-riser applications
- Manufactured in accordance with NEC ARTICLE 760, and rated to 300 Volts
- Use our fire alarm cable with confidence for your smoke detectors, signaling, fire alarm, and fire protective circuits
- Volume pricing available

3M™ Fire Barrier Pillows

KW: 3m-fbpill

The 3M™ Fire Barrier Pillow is a self-contained, highly intumescent product designed to firestop a wide variety of through-penetrations including cable trays (up to two per opening), conduit, and blank openings that penetrate fire-rated construction.

During a fire, 3M™ Fire Barrier Pillow intumesces (expands) and locks itself into place, completely surrounding the penetrant(s) to stop smoke, fire and toxic gases from spreading to the next room or next floor for the rated time period. They are easy to install and great for retrofit projects. Just remove and replace pillows as needed.

- No wire mesh
- They are 3-hour UL Listed systems and have been tested according to UL 910
- UL Listed systems up to a 540 sq. in. opening
- Easy retrofit - remove and replace pillows as needed
- Multiple sizes available
- From $15.85

TYPICAL PHYSICAL PROPERTIES	
Blanket Color:	3M Red
Density:	6 PCF (nominal)
PERFORMANCE	
3M Fire Barrier Pillow has been tested in accordance with ASTM E 84	
Density:	6 PCF (nominal)
Heat Expansion Begins:	392°F (200°C)
Significant Expansion Begins:	536°F (280°C)
Volume Expansion:	18% (calculated)

3M™ Fire Barrier Mortar

KW: 3m-mort

3M™ Fire Barrier Mortar is a lightweight cementitious firestop product. It is available in poly/paper bag, ready to mix with potable water. 3M™ Fire Barrier Mortar does not contain man-made-mineral-fibers or asbestos, and does not require fibrous damming materials.

- Variable Mix Ratio: permits self-leveling as well as no sag (no forming) application consistencies, resulting in labor savings
- Excellent Adhesion: will bond to concrete, metals, wood, plastic and cable jacketing
- Pricing based on application and size
